

Confidentiality

ရေဒီယိုရေဒီယိုရေဒီယိုရေဒီယို

All of the information you provide during the census is completely confidential, as guaranteed by the 2013 Population and Housing Census Law.

Information shall not be used for investigation or as evidence in any criminal or civil proceedings except for statistical purposes.

With the correct information that you provide during the Census, the State can plan the provision of the following services in your area/communities:

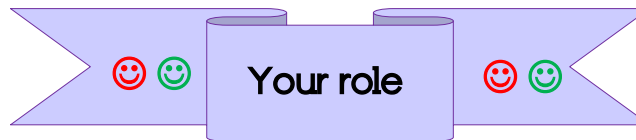

- Required number of schools
- Required hospitals and clinics
- Water distribution system
- Provision of electricity and energy
- Creation of job opportunities
- Security requirements
- Development of socio-economic conditions
- Disability friendly services
- Protection and services for the elderly
- Protection of women and children

Accurate and correct population information will help improve the standards of living in Myanmar.

2014 Population and Housing Census

Population and Housing Census data collection will be conducted from 30th March to 10th April 2014.

- To accurately and completely respond to all the questions asked by the enumerator
- To support and work together with us in the census operation

The Republic of the Union of Myanmar
Central Census Commission

**A nation-wide census,
Let us all Participate**

**Accurate population data for
national development**

The Population and Housing Census is an important exercise for the success of development programmes in Myanmar.

The objective of the Population and Housing Census operation:

To obtain basic population related information required for policy making, formulation and implementation of projects for the matters related to social, economic and management of the country.

Who will be counted?
