## Introduction

In April 2014, the Government of the Republic of the Union of Myanmar conducted its latest census, after three decades without a Population and Housing Census. In the post-independence period, comprehensive population and housing censuses were only successfully undertaken in 1973, 1983 and most recently in April 2014.

Censuses are an important source of benchmark information on the characteristics of the population and households in every country. One unique feature of a census is its ability to provide information down to the lowest administrative level. Such information is vital for planning and evidence based decision-making at every level. Additional data uses include allocation of national resources; the review of administrative boundaries; the positioning of social infrastructures, drawing national development plans, service provision and developing social infrastructure, and for humanitarian preparedness and response.

The results of the 2014 Census have been published so far in a number of volumes. The first was the Provisional Results released in August 2014. The Census Main Results were launched in May 2015. These included The Union Report, Highlights of the Main Results, and reports of each of the 15 States and Regions. The reports on Occupation and Industry and Religion were launched in March 2016 and July 2016, respectively. All the publications are available online at <http://www.dop.gov.mm/> and <http://myanmar.unfpa.org/node/15104>.

The current set of the 2014 Census publications comprise township and sub-township reports. Their preparation involved collaborative efforts of the Department of Population and UNFPA. This report contains selected demographic and socio-economic characteristics of Mingala Taungnyunt Township in Yangon Region. The information included in this report is the situation of 2014 March 29, Census night. Township level information is very important. However, the level of confidence of township estimates is not the same as Union level information. Some of the townships have relatively small populations; the interpretation of these estimates should be made with caution. Some of the indicators, such as IMR/U5MR, were adopted only after careful analysis considering a number of factors to ensure consistency in the results. Estimates for townships with relatively small number of observations should not be taken as exact estimates of the mortality level, but rather they should be regarded as reasonable indicators for the scale of mortality risk they experience, an indication of which townships are better off and which are in a more vulnerable situation.

**Census information on Mingala Taungnyunt Township**

## (A) Demographic Characteristics

Total population	132,494 *		
Males	62,530		
Females	69,964		
Sex ratio	89 males per 100 females		
Percentage of urban population	100.0%		
Area (Km <sup>2</sup> )	5.1 **		
Population density (persons per Km <sup>2</sup> )	26,171.0 persons		
Number of wards	20		
Number of village tracts	-		
	Total	Urban	Rural
Population in conventional households	126,134	126,134	-
Number of conventional households	25,918	25,918	-
Mean household size	4.9 persons ***		
<ul style="list-style-type: none"> <li>• In Mingala Taungnyunt Township, there are more females than males with 89 males per 100 females.</li> <li>• In Mingala Taungnyunt Township, entire population live in urban areas.</li> <li>• The population density of Mingala Taungnyunt Township is 26,171 persons per square kilometre.</li> <li>• There are 4.9 persons living in each household in Mingala Taungnyunt Township. This is slightly higher than the Union average.</li> </ul>			

Note: \* Includes both household population and institution population.

Age groups	Total	Males	Females
<b>Total</b>	<b>132,494</b>	<b>62,530</b>	<b>69,964</b>
0 - 4	8,135	4,185	3,950
5 - 9	8,528	4,301	4,227
10 - 14	10,052	5,124	4,928
15 - 19	12,183	6,092	6,091
20 - 24	13,814	6,758	7,056
25 - 29	12,392	5,821	6,571
30 - 34	11,080	5,361	5,719
35 - 39	9,582	4,415	5,167
40 - 44	9,381	4,255	5,126
45 - 49	9,005	4,017	4,988
50 - 54	8,198	3,601	4,597
55 - 59	6,748	2,971	3,777
60 - 64	4,880	2,131	2,749
65 - 69	3,250	1,432	1,818
70 - 74	1,995	823	1,172
75 - 79	1,504	607	897
80 - 84	960	363	597
85 - 89	496	163	333
90 +	311	110	201

- The proportion of productive working population between 15 to 64 years of age in Mingala Taungnyunt Township is 73.4 per cent.
- The proportion of children aged 14 and below together with the proportion of the elderly aged 65 and over are less than the proportion of the working age group population.
- Fewer proportions of children and elderly reduce the dependency of those age groups on the working age population.

**Figure 3: Population pyramid (Union, Yangon Region, East District and Mingala Taungnyunt Township)**

- The birth rate has been noticeably declining in Mingala Taungnyunt Township since the last 20 years.
- The population has markedly declined from age group 25-29 onwards.
- Compared to Union level, there is a higher percentage of working age group 15-64 population in Mingala Taungnyunt Township.
- Starting from age group 20-24, there are less males than females in all age groups.

## (B) Religion

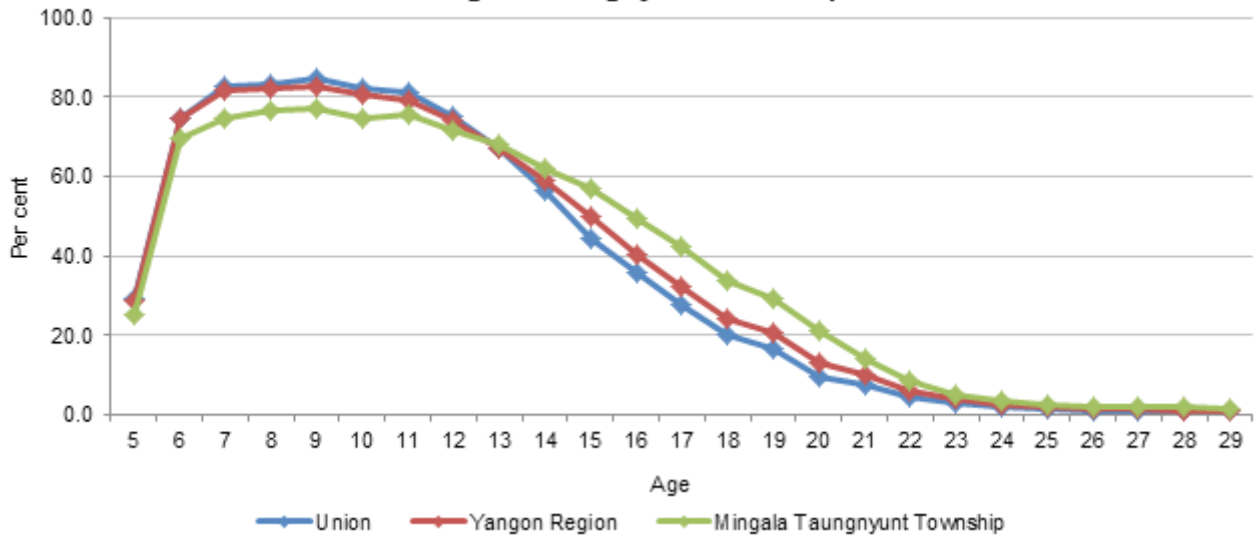

- At the Union level, the composition of the population by religion is: 87.9% Buddhist, 6.2% Christian, 4.3% Islam, 0.5% Hindu, 0.8% Animist, 0.2% Other religion and 0.1% No religion.
- In Yangon Region, it is 91.0% Buddhist, 3.2% Christian, 4.7% Islam, 1.0% Hindu, 0.1% Other religion, and less than 0.1% each for Animist and those with No religion respectively.

Note: \* Less than 0.1 per cent.

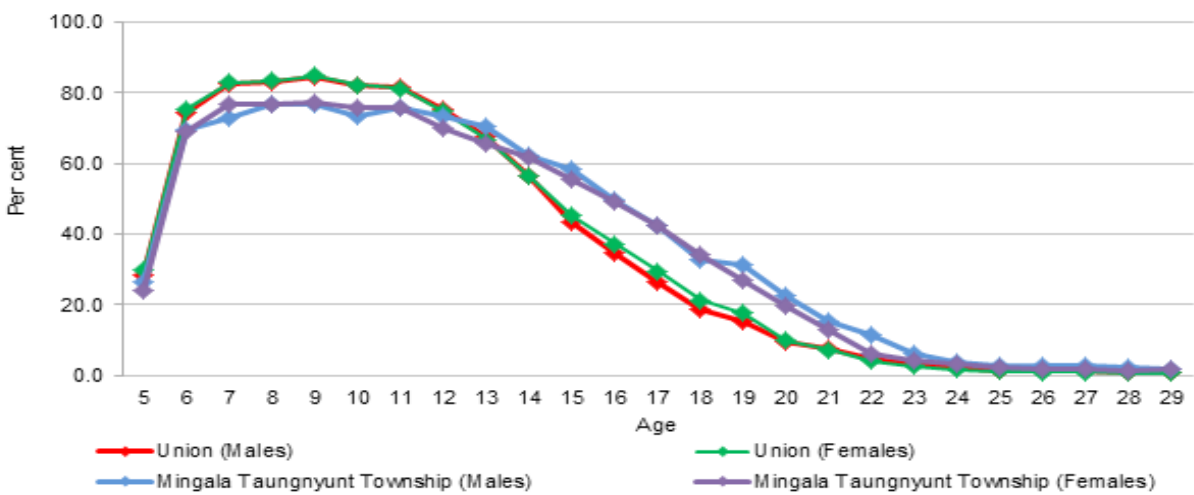

**(C) Education****Table 3: Population aged 5 - 29 and current school attendance by sex by age**

<b>Age</b>	<b>Total population</b>			<b>Currently attending</b>		
	<b>Total</b>	<b>Males</b>	<b>Females</b>	<b>Total</b>	<b>Males</b>	<b>Females</b>
5	1,581	812	769	401	215	186

23	2,448	1,166	1,282	129	73	56
24	2,367	1,052	1,315	85	41	44
25	2,296	1,007	1,289	54	27	27
26	2,155	991	1,164	47	26	21
27	2,268	1,024	1,244	48	27	21
28	2,433	1,144	1,289	43	27	16
29	2,204	1,002	1,202	38	17	21

**Figure 5: School attendance by age, Union, Yangon Region and Mingala Taungnyunt Township**

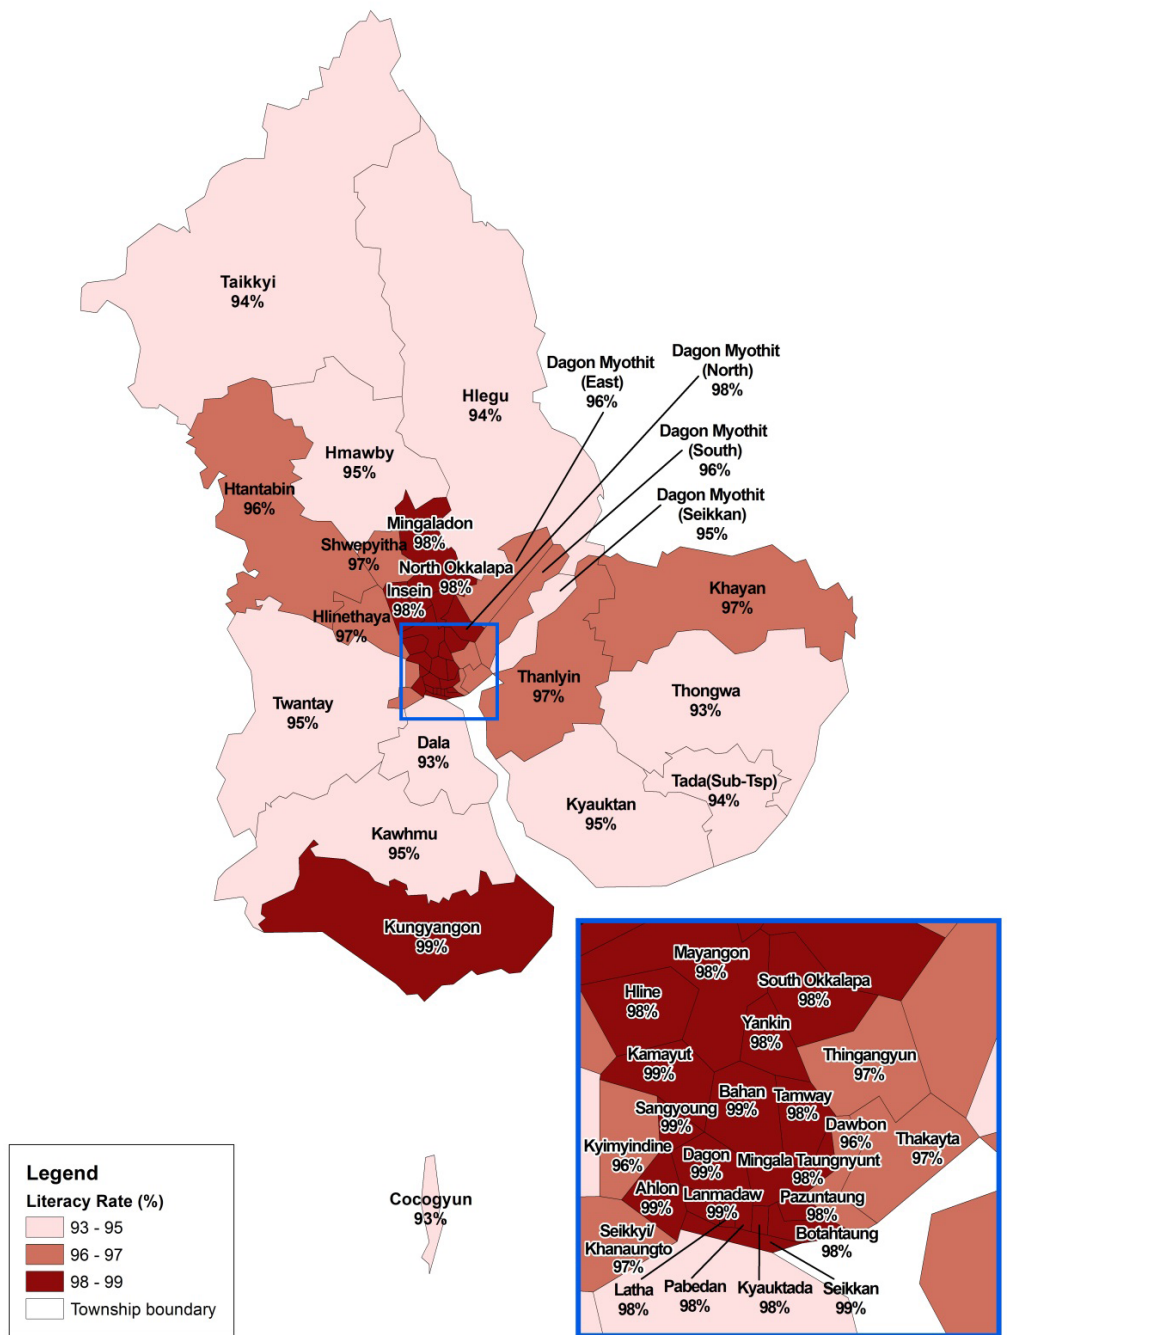

**Figure 6: School attendance by age by sex, Union and Mingala Taungnyunt Township**

- School attendance in Mingala Taungnyunt Township drops after age 12 for both males and females.
- Compared to the Union, the school attendance of males and females in Mingala Taungnyunt Township is increasing more after age 13.

**Figure 7: Literacy rate, Yangon Region (aged 15 and over)**

Union	: 89.5%
Yangon Region	: 96.6%
East District	: 97.1%
Mingala Taungnyunt Township	: 97.6%

**Table 4: Youth literacy rate (15 - 24), Mingala Taungnyunt Township**

Sex	Total Population (15 - 24)	Literacy Rate (15 - 24)
Total	23,442	98.3
Males	11,130	98.6
Females	12,312	98.0

- The literacy rate of those aged 15 and over in Mingala Taungnyunt Township is 97.6 per cent. It is higher than the literacy rate of Yangon Region (96.6%) and the Union (89.5%). Female literacy rate is 96.7 per cent and for the males it is 98.8 per cent.
- The literacy rate for youth aged 15-24 is 98.3 per cent with 98.0 per cent for females and 98.6 per cent for males.

**Table 5: Population aged 25 and over by highest level of education completed, urban/rural and sex**

	Total	None	% Never attended	Primary school		Middle school (grade 6 - 9)	High school (grade 10 - 11)	Diploma	University/ College	Post-graduate and above	Vocational training	Other
				(grade 1 - 4)	(grade 5)							
Total	79,782	2,531	3.2	6,135	6,862	19,163	20,764	467	22,192	1307	255	106
Urban	79,782	2,531	3.2	6,135	6,862	19,163	20,764	467	22,192	1307	255	106
Rural	-	-	-	-	-	-	-	-	-	-	-	-
Males	36,070	629	1.7	2,066	2,654	9,478	10,823	370	9,362	435	199	54
Females	43,712	1,902	4.4	4,069	4,208	9,685	9,941	97	12,830	872	56	52

- About 3.2 per cent of the population aged 25 and over have never been to school.
- There are 1.7 per cent of males aged 25 and over who have never attended school as against 4.4 per cent for females.
- Among those aged 25 and over, 8.6 per cent has completed primary school (grade 5) and only 27.8 per cent has completed university/college education.

## (D) Economic Characteristics

Table 6: Population aged 10 and over by labour force participation rate and unemployment rate by sex and age group

Age groups	Labour Force Participation Rate			Unemployment Rate		
	Total	Males	Females	Total	Males	Females
10-14	5.0	6.1	3.8	6.2	7.1	4.8
15 - 19	33.9	42.2	25.7	10.6	12.6	7.2
20 - 24	64.4	77.6	51.7	12.7	12.6	12.8
25 - 29	68.9	90.2	50.1	7.2	7.8	6.2
30 - 34	67.9	92.9	44.6	3.7	3.7	3.7
35 - 39	64.7	92.7	40.8	2.5	2.8	2.0
40 - 44	63.0	91.9	39.0	2.1	2.3	1.8
45 - 49	59.9	90.1	35.6	1.5	1.7	1.1
50 - 54	56.5	86.4	33.0	0.9	1.0	0.6
55 - 59	50.5	78.5	28.4	0.8	1.0	0.5
60 - 64	30.8	52.4	14.0	0.5	0.6	-
65 - 69	18.3	31.8	7.6	0.8	0.7	1.4
70 - 74	9.4	16.5	4.4	-	-	-
75 +	6.5	10.3	4.2	0.5	-	1.2
15 - 24	50.1	60.8	39.7	12.0	12.6	11.2
15 - 64	57.7	79.8	38.4	5.2	5.3	5.0

- Labour force participation rate for the population aged 15-64 in Mingala Taungnyunt Township is 57.7 per cent.
- The labour force participation rate of females is 38.4 per cent and is much lower than that of their male counterparts which is 79.8 per cent.
- In Mingala Taungnyunt Township, labour force participation rate for the population aged 10-14 is 5.0 per cent.
- The unemployment rate for those aged 15-64 in Mingala Taungnyunt Township is 5.2 per cent. There is not much difference between the unemployment rate for males is (5.3%) and for females is (5.0%).
- The unemployment rate for young females aged 15-24 is 11.2 per cent.

**Table 7: Population aged 10 and over not in the labour force by usual activity status and sex**

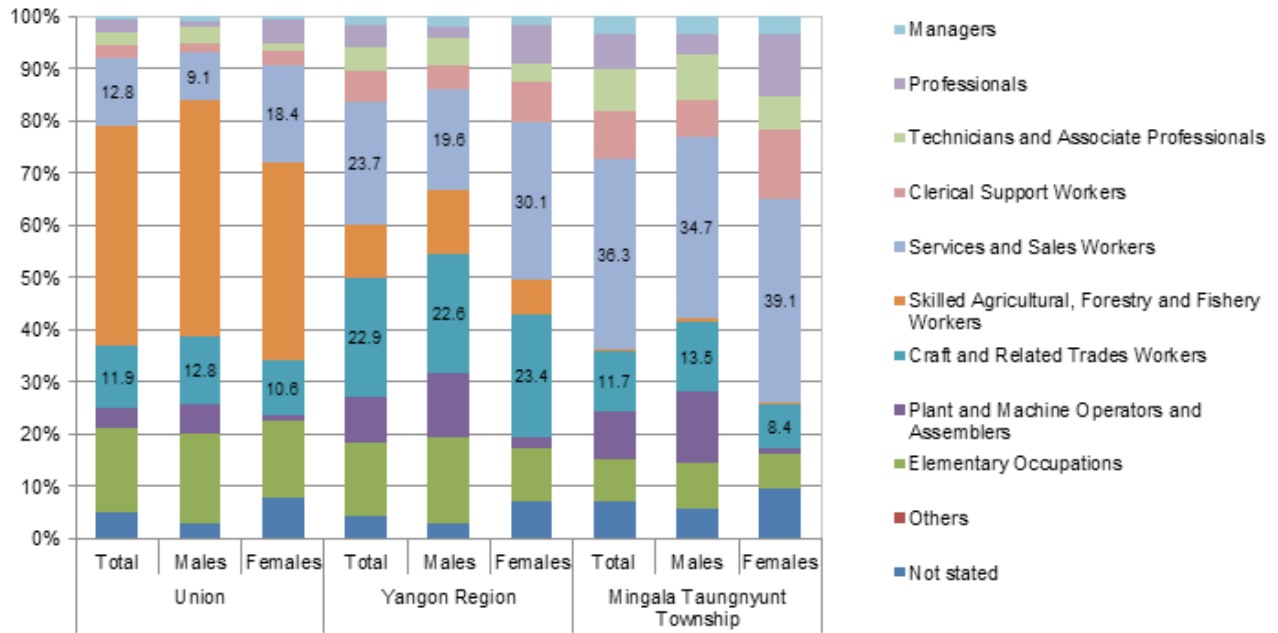

Sex	Usual activity status						
	Total	Did not seek work	Full time student	Household worker	Pensioner, retired, elderly	Ill, disabled	Other

	<b>Number</b>	<b>25,918</b>	<b>25,918</b>	-

- In Mingala Taungnyunt Township, households use wood-related fuels for cooking with 0.8 per cent using firewood and 19.7 per cent using charcoal.
- About 71.5 per cent of households mainly use electricity for cooking.

Note: \* Less than 0.1 per cent.

## Communication and related amenities

**Table 17: Conventional households by availability of communication and related amenities by urban/rural**

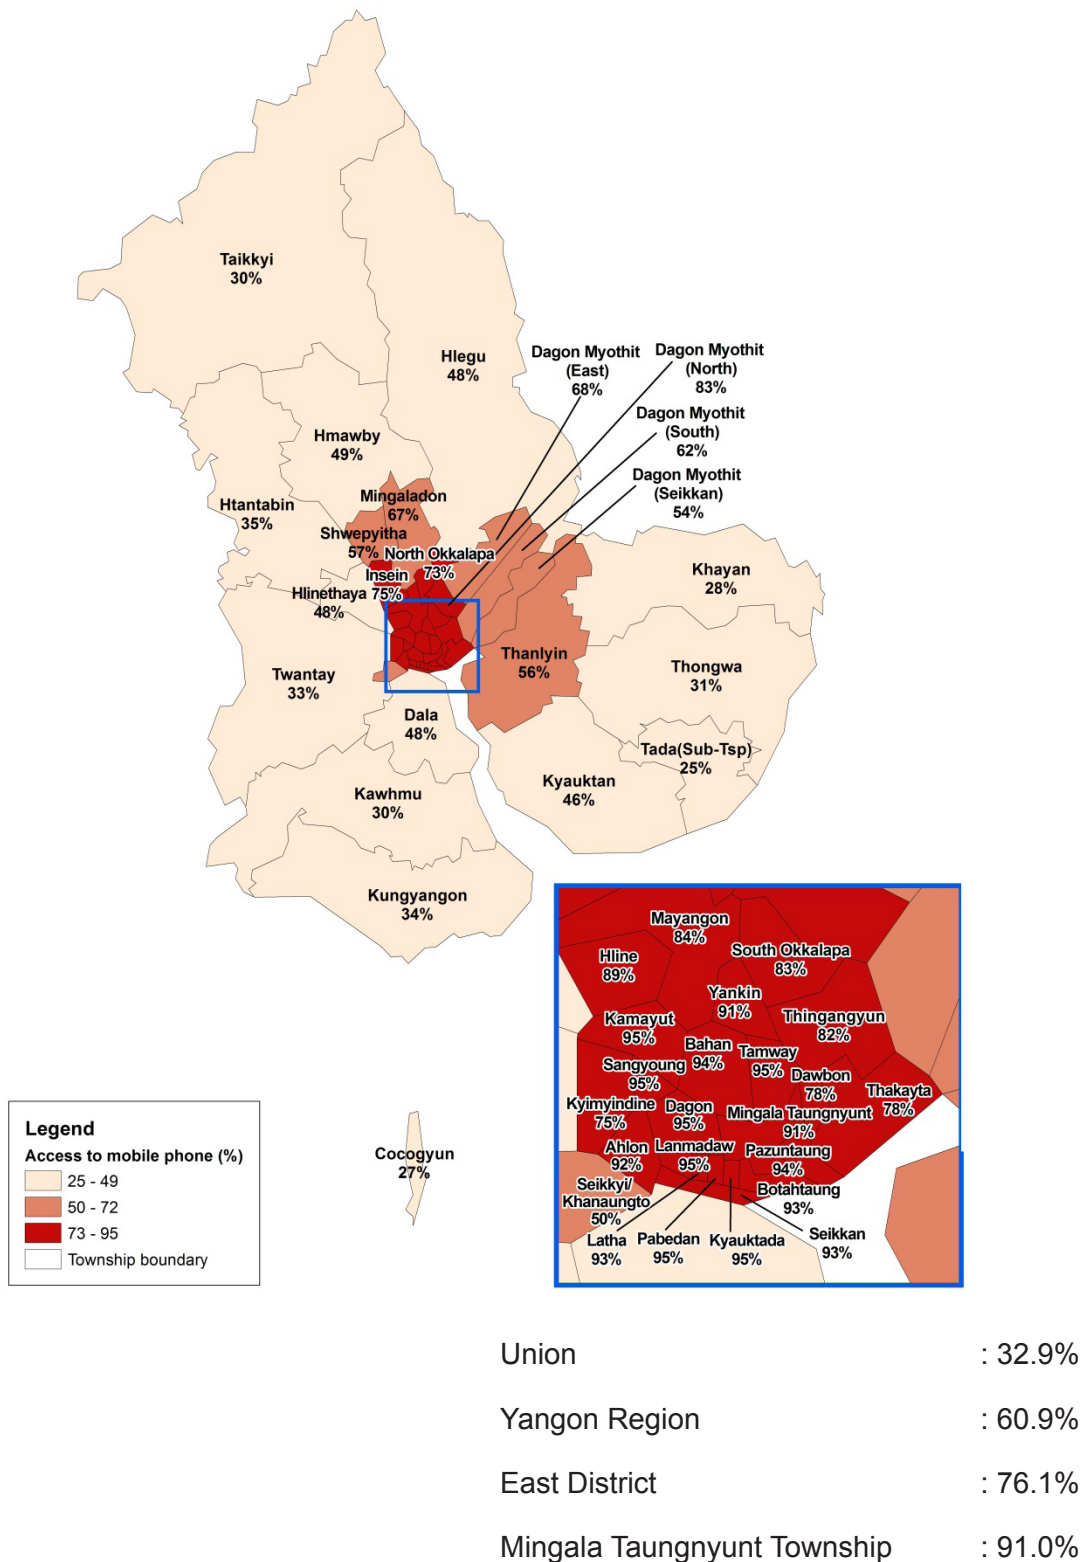

Residence	Conventional households	Radio	Television	Land line phone	Mobile phone	Computer	Internet at home	% with none of the items	% with all of the items
Total	25,918	16.8	92.0	19.4	91.0	25.7	27.6	3.0	2.7
Urban	25,918	16.8	92.0	19.4	91.0	25.7	27.6	3.0	2.7
Rural	-	-	-	-	-	-	-	-	-

- About 92.0 per cent of the households in Mingala Taungnyunt Township have access to television and is the highest among the access of communication and related amenities.

- In Mingala Taungnyunt Township, about one in six households (16.8%) reported having a radio.

**Figure 19: Proportion of households with access to mobile phone**

- About 91.0 per cent of the households in Mingala Taungnyunt Township reported having mobile phones and it belongs to highest group compared to other townships in Yangon Region.

## Transportation items

**Table 18: Conventional households by availability of transportation items by urban/rural**

Region/District/ Township	Conventional households	Car/Truck/ Van	Motorcycle/ Moped	Bicycle	4-Wheel tractor	Canoe/ Boat	Motor boat	Cart (bullock)
Yangon Region	1,582,944	123,149	215,828	731,428	19,305	19,464	15,790	76,215

Mingala Taungnyunt Township	25,918	4,602	204	2,809	28	19	18	29
Urban	25,918	4,602	204	2,809	28	19	18	29
Rural	-	-	-	-	-	-	-	-

- In Mingala Taungnyunt Township, 17.8 per cent of the households have car/truck/van as a means of transport and it is the highest proportion, followed by 10.8 per cent of households having bicycle.

## (H) Fertility and Mortality

### Fertility

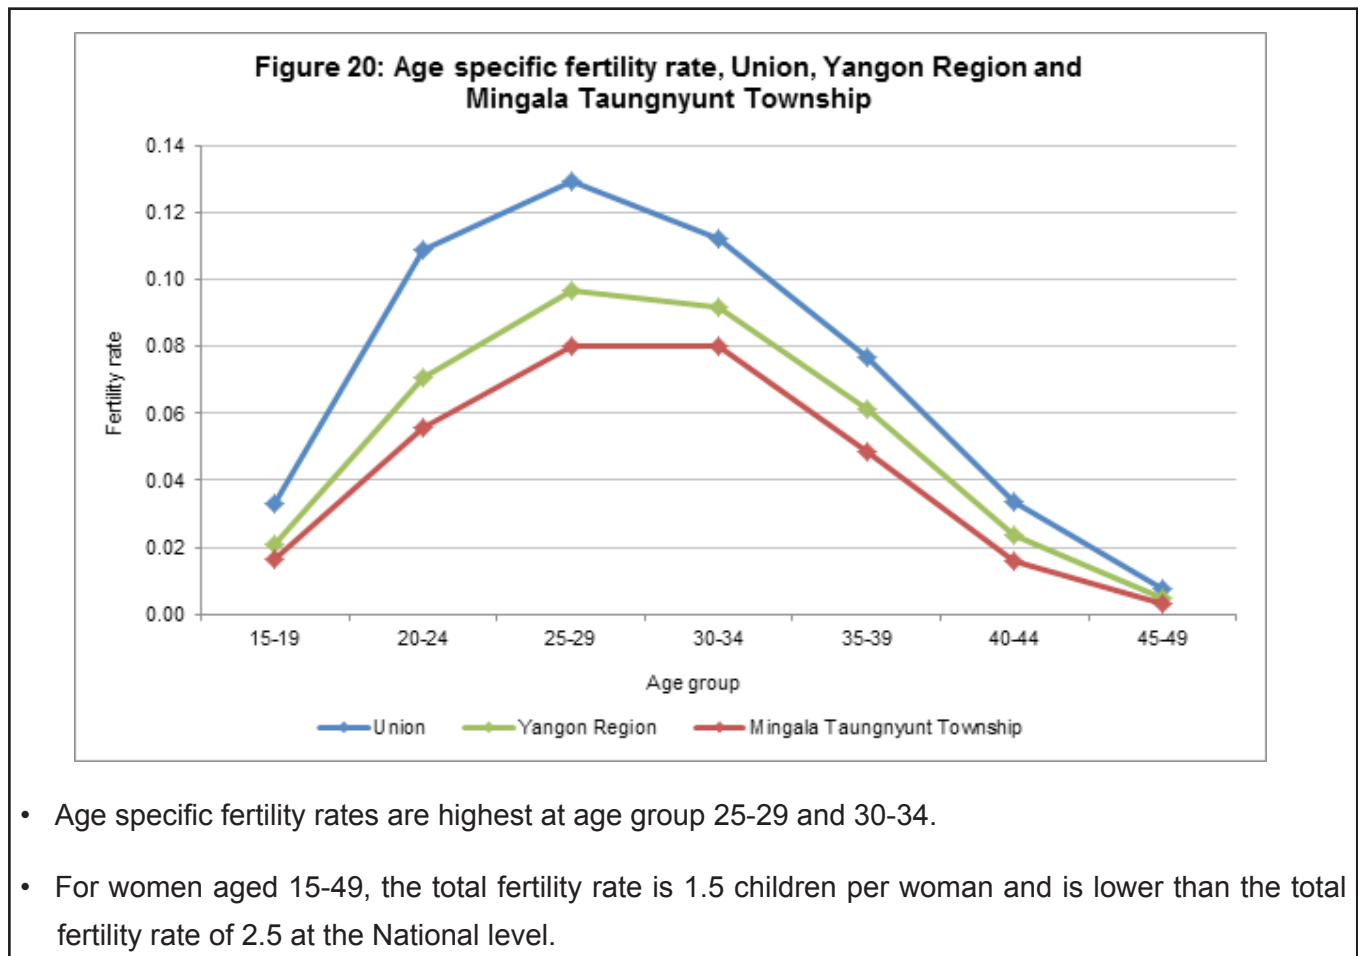

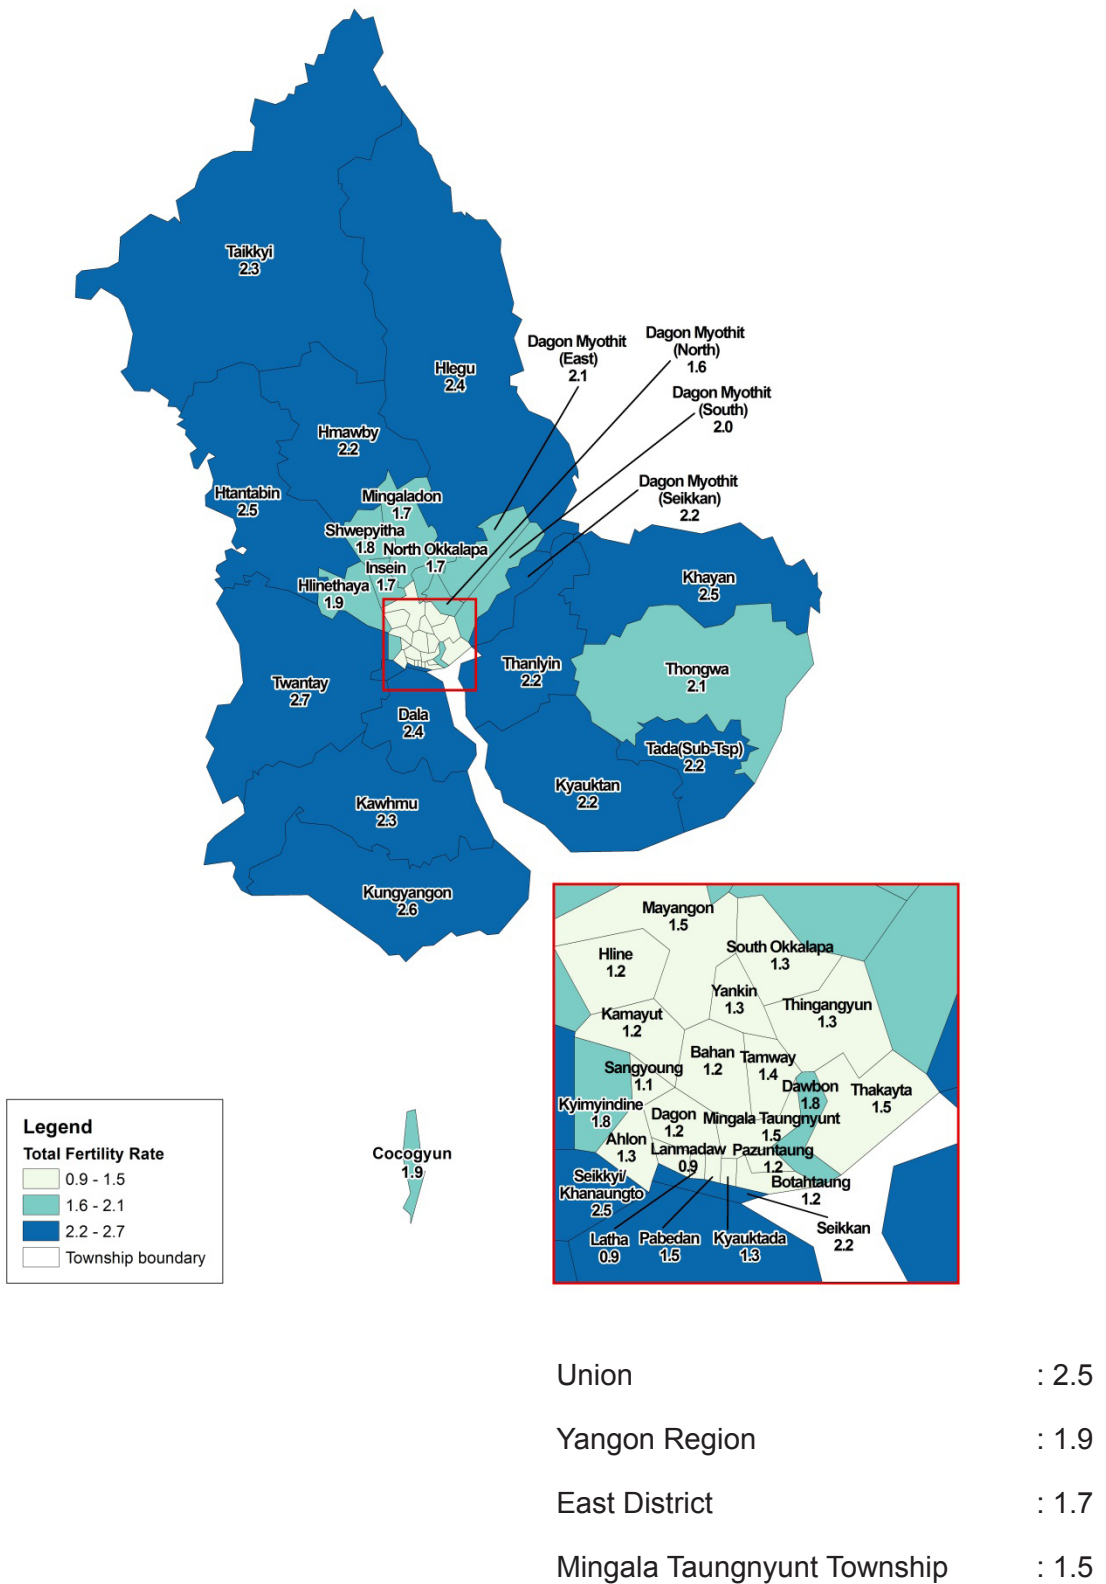

Figure 21: Total fertility rate

**Figure 22: Life expectancy (Union and State/Region)**

- The expectation of life at birth in Yangon Region is 65.5 years and is higher than that of National level at 64.7 years.
- The female life expectancy at 70.8 years is higher than that of the males at 60.5 years.

**Childhood Mortality and Maternal Mortality**

**Figure 23: Infant and Under 5 mortality rates**

- The Infant and Under 5 mortality rates in East District are lower than the Union average. The Infant mortality in East District is 33 deaths under age one per 1,000 live births while Under 5 mortality is 37 deaths under age 5 per 1,000 live births.
- The Infant and Under 5 mortality rates in Mingala Taungnyunt Township are lower than those in Yangon Region and East District. The Infant mortality in Mingala Taungnyunt is 19 per 1,000 live births and Under 5 mortality is 22 per 1,000 live births.

**Figure 24: Maternal mortality ratios (Union and State/ Region)**

- In Yangon Region, there are 213 women dying while during pregnancy/delivery or within 42 days of termination of pregnancy for every 100,000 live births.
- The maternal mortality ratio in Yangon Region is lower than that of the Union level.
- Compared to the average maternal mortality ratio of 140 for Southeast Asian countries, the maternal mortality ratio of 282 for Myanmar is high.

## Definitions and Concepts

**Population:** The population in this report corresponds to the de-facto population of Myanmar on Census Night (see below).

**Census Night:** The night between the 29<sup>th</sup> and the 30<sup>th</sup> March 2014. Every person in Myanmar was enumerated where they spent the Census Night.

**Rural area:** Areas classified by the Department of General Administration (GAD) as village tracts. Generally these are areas with low population density and a land use which is predominantly agricultural.

**Urban area:** Areas classified by the GAD as wards. Generally these areas have an increased density of building structures, population and better infrastructural development.

**Population Density:** The population density relates to the number of persons in a given administrative area to the surface of the area, expressed in square kilometres (Km<sup>2</sup>). Areas covered by water are excluded from the calculation.

**Mean Household Size:** The average number of persons per household (people living in households divided by number of conventional households).

**Sex ratio:** The number of males for every 100 females in a population.

**Dependency ratio:** The total dependency ratio is the ratio of dependents (people younger than 15 years and older than 64) to the population of working-age (age 15-64). Data are shown as the proportion of dependents per 100 working-age population. Three different measures can be calculated: total dependency ratio, child dependency ratio and old age dependency ratio.

**Child Dependency Ratio:** is the proportion of people younger than 15 years to the working age population (15-64).

**Old Dependency Ratio:** is the proportion of people older than 64 years to the working age population (15-64).

**Ageing Index:** The number of persons aged 65 years and over per 100 people under the age of 15 years.

**Median Age:** The age that divides a population into two numerically equal groups; that is, half the people are younger than this age and half are older.

**Education:** Education is the process by which people learn through instruction and teaching. The 2014 MPHC placed an emphasis on literacy skills, school attendance and educational attainment. The other categorisations used under education were:

(a) **Literacy:** The ability to read and write in any language with reasonable understanding.

(b) **School attendance:** The attendance at any regular educational institution or systematic instruction at any level of education during the last 12 months. This included schooling at pre-primary, primary, middle, high school and tertiary institutions of higher learning. The options were:

(a) Currently attending; (b) Attended previously; (c) Never attended.

(c) **Educational Attainment:** The highest grade/standard/diploma/degree completed within the most advanced level attended in the education system of the country where the education was received. It covered both public and private institutions accredited by government.

**Disability:** Disability is a situation where a person is at a greater risk than the general population of experiencing restrictions in performing routine activities (including activities of daily living) or participating in roles (such as work) if no supportive measures are offered. The difficulties covered in the 2014 census included:

- (a) **Walking difficulty** (wheel chairs, crutches, limping, problems climbing steps);
- (b) **Seeing difficulty** (low vision, blind);
- (c) **Hearing difficulty** (partially or completely deaf);
- (d) **Mental/Intellectual difficulty** (slow learning development making it hard to compete with their counterparts at school, other mental conditions).

**Identity card:** An identity card is a document used to verify aspects of a person's personal identity. There are several types of identity cards issued by the Government of Myanmar, and national passports in the case of foreigners.

**Labour Force Status:** According to the type of usual economic activities during the 12 months before Census Night, all persons 10 years of age and over were classified as follows:

**Labour Force:** The Labour force is a general term covering “employed” and “unemployed” persons in the population.

**Employed:** “Employed” persons refer to those who did any work during the time of the week before the census date or worked for more than 6 months in the 12 months before the census date for pay or profit, such as a wage, salary, allowance, business profit, etc. Also included in this category were persons

working in family businesses, on a farm, in a store, in a private hospital etc., even though they were not paid any wages.

**Unemployed:** “Unemployed” persons refer to those who had no work but were able to work and actually seeking a job during the reference period, or at the time of the census enumeration.

**Not in labour force:** This category comprised persons who had no work and did not make any positive efforts to find a job during the 6 months before the census date or were unable to work. This included full time students, household work, elderly people, etc.

**Employment Status:** All employed persons were classified according to the economic activity status in the place where they worked during the last 12 months or if they worked in more than one place, where they worked most of the time. There were five employment categories:

- (a) **Employee (Government):** those employed and working for government including in state organisation institutions.
- (b) **Employee (Private organisation):** those employed and working for private employers or private organisations. All people in private companies, NGOs, international organisations, retail and wholesale enterprises fell under this category.
- (c) **Employer:** persons who during the reference period worked in their own business, which also employed one or more other persons.
- (d) **Own account worker:** self-employed persons who worked in their own business or worked in their own/family business for family gain **and did not have any employees.**
- (e) **Unpaid family worker:** persons who worked in a business, farm, trade or professional enterprise operated by a member of the household/family and received no pay.

**Labour force participation rate:** The labour force participation rate is the ratio between the labour force and the overall size of the total population of the same age range. This is an important indicator as it portrays the proportion of the population that is economically active.

$$\text{Labour force participation rate} = \frac{\text{Labour force (Employed + Unemployed)}}{\text{Total Population}} \times 100$$

**Unemployment rate:** The percentage of the total labour force that is unemployed but actively seeking employment and willing to work. These are people who are without work, looking for jobs and available for work.

$$\text{Unemployment rate} = \frac{\text{Unemployed}}{\text{Labour force (Employed + Unemployed)}} \times 100$$

**Employment to population ratio:** A statistical ratio that measures the proportion of the country's working-age population (ages 15 to 64) that is employed. The International Labour Organization (ILO) states that a person is considered employed if they have worked at least 1 hour in "gainful" employment in the most recent week.

$$\text{Employment to population ratio} = \frac{\text{Employed}}{\text{Total Population}} \times 100$$

**Occupation:** Occupation refers to the kind of work an employed person did in the establishment during the 12 months (reference period) before the census date. Put differently, occupation is the kind of work done during the last 12 months by the person employed, regardless of the industry of the establishment. In the 2014 Myanmar Census, field data collectors were instructed to collect a detailed description of the work being done such as accounts clerk, data entry operator (clerk), legal secretary, domestic worker, fisherman, human resource manager, etc. If an employed person was engaged in two or more jobs, the kind of work was decided by the work in which he/she was mainly engaged in, that is in terms of time. The occupational classification is based on the ISCO 2008.

**Industry:** Industry refers to the main activity of the establishment where an employed person usually worked during the 12 months (reference period) before the census date. In the 2014 Myanmar Census, industry was explained to the enumerators as the type of economic activity carried out at the person's place of work. It is defined in terms of the kind of goods produced or services supplied by the enterprise in which the person works and not necessarily the specific duties or functions of the person's job. For example, a clerical officer working in stores within a factory that makes television sets. The industry should be recorded as manufacture of electrical goods. If an employed person worked in two or more establishments, "industry" was decided by the establishment where he/she worked most. The industrial classification is based on the ISIC Revision 4.

**Live Birth:** A live birth is one where the infant shows one or more of the following signs of life immediately after birth: crying or similar sounds, movement of the limbs or any other parts of the body and/or any other tangible signs of life. The census was concerned only with children born alive. Also collected was information on the last live birth of ever married female respondents.

**Total fertility rate (TFR):** The average number of children that a woman would give birth to if all women lived to the end of their childbearing years and bore children according to the current schedule of age-specific fertility rates.

$$\text{Total fertility rate (TFR)} = 5 \sum \text{Age specific fertility rate (ASFR)}$$

**Age specific fertility rate (ASFR):** The age-specific fertility rate measures the annual number of births to women of a specified age or age group per 1,000 women in that age group. Unless otherwise specified, the reference period for the age-specific fertility rates is the calendar year.

## List of Contributors

### Contributors to the Yangon Region, East District, Mingala Taungnyunt Township Report

Name	Institution	Role
<b>Prepared by</b>		
Daw Thida	Assistant Director, Department of Population	Leader
Daw Yin Wai Lwin	Immigration Assistant, Department of Population	Assistant
U Wai Yan Oo	Immigration Assistant, Department of Population	Assistant
<b>Translator and Reviewer</b>		
U George Paw Tun	UNFPA Consultant	Translation and Review
<b>Data Processing and IT Team</b>		
Daw Sandar Myint	Deputy Director, Department of Population	Programming and generation of tables
Daw Su Myat Oo	Immigration Assistant, Department of Population	Generation of tables
Daw Aye Thiri Zaw	Junior Clerk, Department of Population	Generation of tables
Daw Lin Lin Mar	Staff Officer, Department of Population	Generation of maps
U Thant Zin Oo	Assistant Computer Operator, Department of Population	Generation of maps
U Khun Zin Naing Tun	Junior Clerk, Department of Population	Generation of maps
<b>Designer</b>		
U Naing Phyo Kyaw	Staff Officer, Department of Population	Graphic Designer
Daw Cho Zin Win	Junior Clerk, Department of Population	Graphic Designer
