Introduction

In April 2014, the Government of the Republic of the Union of Myanmar conducted its latest census, after three decades without a Population and Housing Census. In the post-independence period, comprehensive population and housing censuses were only successfully undertaken in 1973, 1983 and most recently in April 2014.

Censuses are an important source of benchmark information on the characteristics of the population and households in every country. One unique feature of a census is its ability to provide information down to the lowest administrative level. Such information is vital for planning and evidence based decision-making at every level. Additional data uses include allocation of national resources; the review of administrative boundaries; the positioning of social infrastructures, drawing national development plans, service provision and developing social infrastructure, and for humanitarian preparedness and response.

The results of the 2014 Census have been published so far in a number of volumes. The first was the Provisional Results released in August 2014. The Census Main Results were launched in May 2015. These included The Union Report, Highlights of the Main Results, and reports of each of the 15 States and Regions. The reports on Occupation and Industry and Religion were launched in March 2016 and July 2016, respectively. All the publications are available online at <http://www.dop.gov.mm/> and <http://myanmar.unfpa.org/node/15104>.

The current set of the 2014 Census publications comprise township and sub-township reports. Their preparation involved collaborative efforts of the Department of Population and UNFPA. This report contains selected demographic and socio-economic characteristics of South Okkalapa Township in Yangon Region. The information included in this report is the situation of 2014 March 29, Census night. Township level information is very important. However, the level of confidence of township estimates is not the same as Union level information. Some of the townships have relatively small populations; the interpretation of these estimates should be made with caution. Some of the indicators, such as IMR/U5MR, were adopted only after careful analysis considering a number of factors to ensure consistency in the results. Estimates for townships with relatively small number of observations should not be taken as exact estimates of the mortality level, but rather they should be regarded as reasonable indicators for the scale of mortality risk they experience, an indication of which townships are better off and which are in a more vulnerable situation.

Census information on South Okkalapa Township

(A) Demographic Characteristics

Total population	161,126 *		
Males	75,547		
Females	85,579		
Sex ratio	88 males per 100 females		
Percentage of urban population	100.0%		
Area (Km ²)	10.2 **		
Population density (persons per Km ²)	15,812.2 persons		
Number of wards	13		
Number of village tracts	-		
	Total	Urban	Rural
Population in conventional households	153,687	153,687	-
Number of conventional households	32,725	32,725	-
Mean household size	4.7 persons ***		
<ul style="list-style-type: none"> • In South Okkalapa Township, there are more females than males with 88 males per 100 females. • All the people in the Township live in urban areas. • The population density of South Okkalapa Township is 15,812 persons per square kilometre. • There are 4.7 persons living in each household in South Okkalapa Township. This is slightly higher than the Union average. 			

Note: * Includes both household population and institution population.

** Settlement and Land Record Department, Ministry of Agriculture, Livestock and Irrigation, (2014-2015)

*** Calculated based on conventional household population

Figure 2: Population by broad age groups, South Okkalapa Township

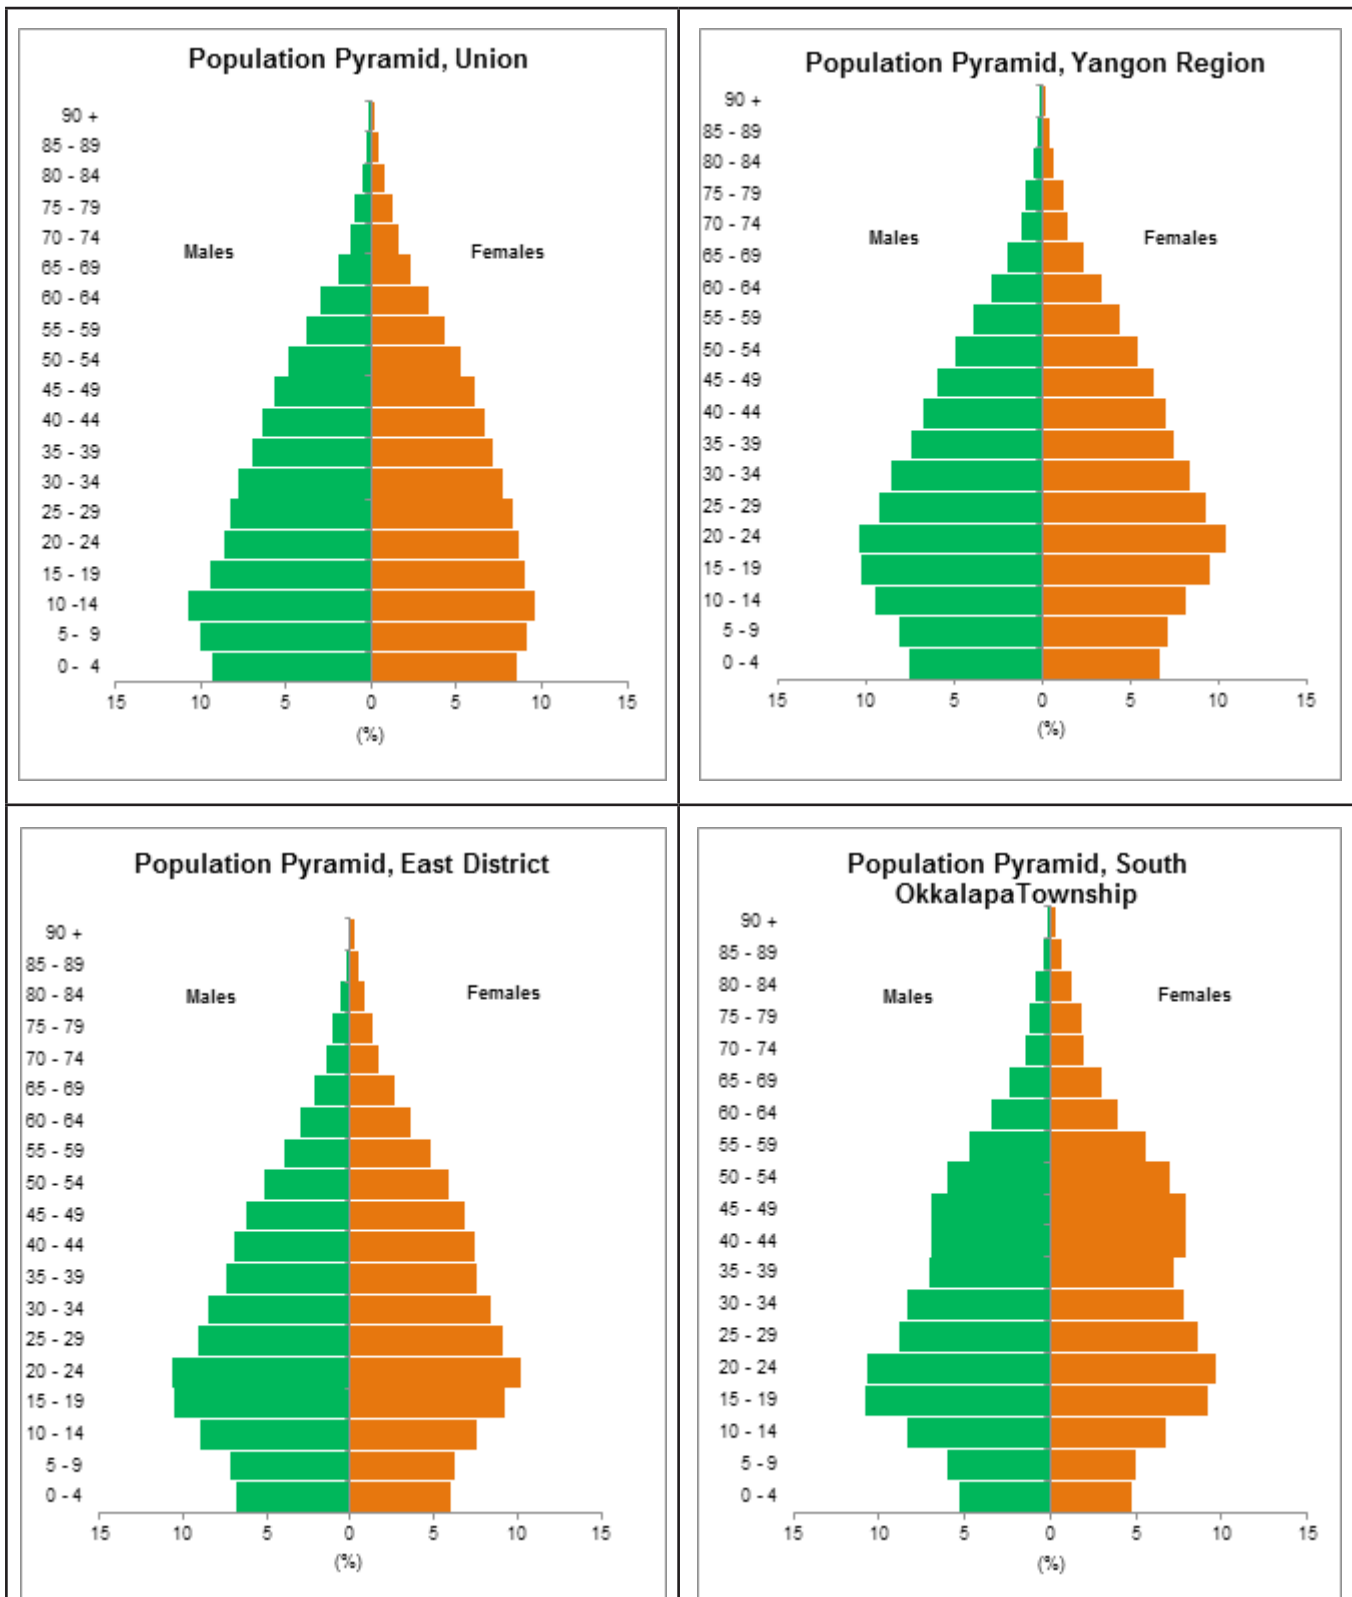

Table 2: Population by 5-year age groups, South Okkalapa Township

Age groups	Total	Males	Females
Total	161,126	75,547	85,579
0 - 4	8,064	4,044	4,020
5 - 9	8,847	4,550	4,297
10 - 14	12,117	6,314	5,803
15 - 19	16,012	8,179	7,833
20 - 24	16,287	8,048	8,239
25 - 29	14,052	6,685	7,367
30 - 34	12,945	6,282	6,663
35 - 39	11,578	5,371	6,207
40 - 44	12,079	5,297	6,782
45 - 49	11,984	5,240	6,744
50 - 54	10,422	4,509	5,913
55 - 59	8,325	3,538	4,787
60 - 64	6,006	2,601	3,405
65 - 69	4,340	1,826	2,514
70 - 74	2,783	1,100	1,683
75 - 79	2,441	930	1,511
80 - 84	1,640	616	1,024
85 - 89	830	291	539
90 +	374	126	248

- The proportion of productive working population between 15 and 64 years of age in South Okkalapa Township is 74.3 per cent.
- The proportion of children aged 14 and below together with the proportion of the elderly aged 65 and over are less than the proportion of the working age group population.
- Fewer proportions of children and elderly reduce the dependency of those age groups on the working age population.

Figure 3: Population pyramid (Union, Yangon Region, East District and South Okkalapa Township)

- The birth rate has been noticeably declining in South Okkalapa Township since the last 15 years.
- The population has markedly declined from age group 30-34 onwards.
- Compared to Union level, there is a considerably higher percentage of working age group 15-64 population in South Okkalapa Township.
- Starting from age group 20-24, there are less males than females in all age groups.

(B) Religion

Note: * Less than 0.1 per cent.

(C) Education

Table 3: Population aged 5 - 29 and current school attendance by sex by age

Age	Total population			Currently attending		
	Total	Males	Females	Total	Males	Females
5	1,508	802	706	457	239	218

20	3,310	1,622	1,688	679	358	321
21	2,913	1,343	1,570	466	254	212
22	2,810	1,325	1,485	309	165	144
23	2,804	1,323	1,481	173	108	65
24	2,666	1,197	1,469	88	52	36
25	2,770	1,271	1,499	83	40	43
26	2,451	1,138	1,313	51	28	23
27	2,531	1,141	1,390	51	28	23
28	2,742	1,258	1,484	47	28	19
29	2,503	1,117	1,386	33	18	15

Figure 5: School attendance by age, Union, Yangon Region and South Okkalapa Township

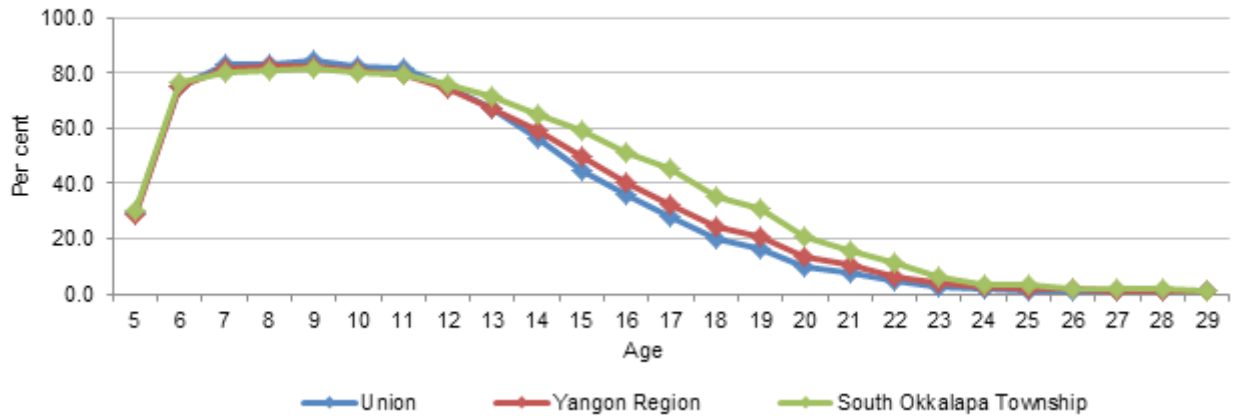

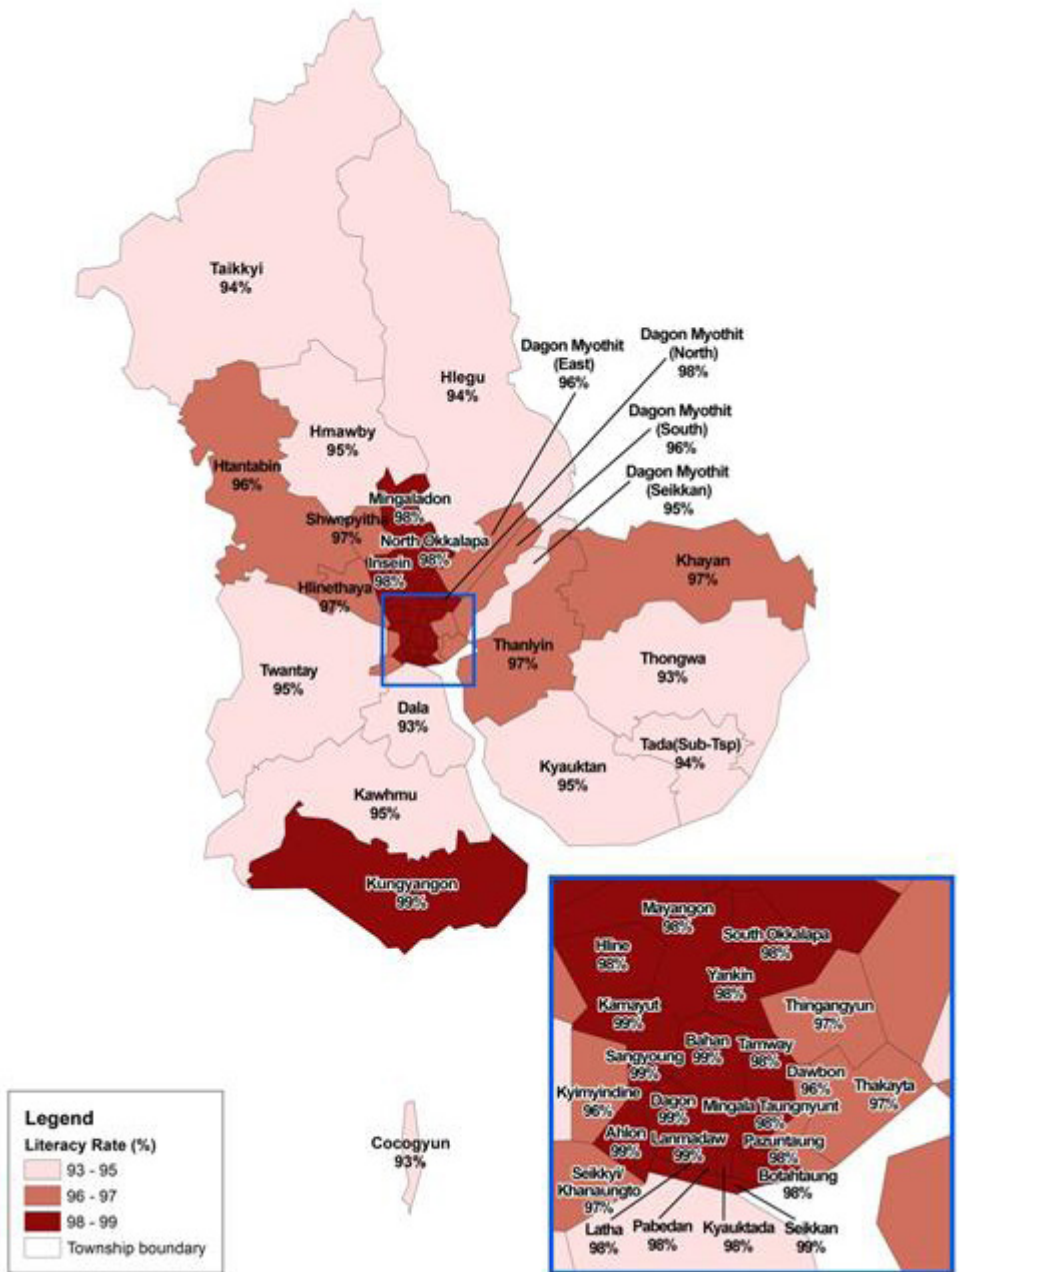

Figure 6: School attendance by age by sex, Union and South Okkalapa Township

- School attendance in South Okkalapa Township drops after age 12 for males and after age 11 for females.
- Compared to the Union, the school attendance of males and females in South Okkalapa Township is higher than that of the Union after age 13 onwards.

Figure 7: Literacy rate, Yangon Region (aged 15 and over)

Union	: 89.5%
Yangon Region	: 96.6%
East District	: 97.1%
South Okkalapa Township	: 98.3%

Table 4: Youth literacy rate (15 - 24), South Okkalapa Township

Sex	Total Population (15 - 24)	Literacy Rate (15 - 24)
Total	28,671	98.8
Males	13,678	99.0
Females	14,993	98.6

- The literacy rate of those aged 15 and over in South Okkalapa Township is 98.3 per cent. It is higher than the literacy rate of Yangon Region (96.6%) and the Union (89.5%). Female literacy rate is 97.6 per cent and for the males it is 99.2 per cent.
- The literacy rate for youth aged 15-24 is 98.8 per cent with 98.6 per cent for females and 99.0 per cent for males.

Table 5: Population aged 25 and over by highest level of education completed, urban/rural and sex

	Total	None	% Never attended	Primary school		Middle school (grade 6 - 9)	High school (grade 10 - 11)	Diploma	University/ College	Post-graduate and above	Vocational training	Other
				(grade 1 - 4)	(grade 5)							
Total	99,799	2,369	2.4	6,931	11,060	24,111	25,584	593	26,787	1,719	347	298
Urban	99,799	2,369	2.4	6,931	11,060	24,111	25,584	593	26,787	1,719	347	298
Rural	-	-	-	-	-	-	-	-	-	-	-	-
Males	44,412	514	1.2	2,112	3,945	11,615	13,336	452	11,471	537	290	140
Females	55,387	1,855	3.3	4,819	7,115	12,496	12,248	141	15,316	1,182	57	158

- Some 2.4 per cent of the population aged 25 and over have never been to school.
- There are 1.2 per cent of males aged 25 and over who have never attended school as against 3.3 per cent for females.
- Among those aged 25 and over, 11.1 per cent has completed primary school (grade 5) and 26.8 per cent has completed university/college education.

(D) Economic Characteristics

Table 6: Population aged 10 and over by labour force participation rate and unemployment rate by sex and age group

Age groups	Labour Force Participation Rate			Unemployment Rate		
	Total	Males	Females	Total	Males	Females
10-14	6.9	8.5	5.1	9.5	11.9	5.1
15 - 19	38.1	42.8	33.2	10.7	13.0	7.7
20 - 24	69.3	75.5	63.2	14.4	15.1	13.6
25 - 29	74.2	88.4	61.2	8.2	9.5	6.4
30 - 34	71.7	92.5	52.2	5.0	6.0	3.4
35 - 39	69.0	92.6	48.5	3.0	3.6	1.8
40 - 44	64.4	90.9	43.7	2.0	2.5	1.0
45 - 49	62.7	89.0	42.3	1.5	2.1	0.5
50 - 54	56.9	83.3	36.7	1.1	1.6	0.2
55 - 59	48.5	73.0	30.3	0.6	0.8	0.1
60 - 64	25.9	43.6	12.3	0.5	0.7	-
65 - 69	15.9	27.6	7.4	0.3	0.4	-
70 - 74	8.4	15.0	4.1	-	-	-
75+	3.4	5.3	2.3	1.1	1.0	1.3
15 - 24	53.8	59.0	48.6	13.1	14.3	11.6
15 - 64	60.1	77.5	44.8	5.8	6.4	5.0

- Labour force participation rate for the population aged 15-64 in South Okkalapa Township is 60.1 per cent.
- The labour force participation rate of females is 44.8 per cent and is much lower than that of their male counterparts which is 77.5 per cent.
- In South Okkalapa Township, labour force participation rate for the population aged 10-14 is 6.9 per cent.
- The unemployment rate for those aged 15-64 in South Okkalapa Township is 5.8 per cent. There is a slight difference between the unemployment rate for males (6.4%) and for females (5.0%).
- The unemployment rate for young females aged 15-24 is 11.6 per cent.

Table 7: Population aged 10 and over not in the labour force by usual activity status and sex

Sex	Usual activity status						
	Total	Did not seek work	Full time student	Household worker	Pensioner, retired, elderly	Ill, disabled	Other
Total	70,385	1.1	29.1	41.5	19.2	1.5	7.6
Males	22,418	2.6	46.2	3.6	27.7	2.6	17.2
Females	47,967	0.4	21.1	59.2	15.2	1.0	3.1

- Among those aged 10 and over who are not in the labour force, 46.2 per cent of males are full time students while 59.2 per cent of females are household workers.

Table 8: Employed persons aged 15 - 64 by occupation by sex

Occupation	Employed persons			Per cent		
	Total	Males	Females	Total	Males	Females
Total	63,696	38,009	25,687	100.0	100.0	100.0
Managers	1,791	1,127	664	2.8	3.0	2.6
Professionals	4,609	1,512	3,097	7.2	4.0	12.1

Figure 11: Percentage of employed persons aged 15 - 64 by industry by sex, Union, Yangon Region and South Okkalapa Township

- In South Okkalapa Township, the proportion of employed persons working in the industry of “Wholesale and retail trade; repair of motor vehicles and motorcycles” is the highest with 19.6 per cent.
- The second highest industry is “Manufacturing” at 15.3 per cent.
- There are 18.6 per cent of males and 21.1 per cent of females working in “Wholesale and retail trade; repair of motor vehicles and motorcycles” industry.
- In Yangon Region, there are 15.8 per cent of employed population working in “Wholesale and retail trade; repair of motor vehicles and motorcycles” industry and 14.9 per cent in “Manufacturing” industry.

(E) Identity Cards

Table 10: Population aged 10 and over by type of identity card, urban/rural and sex

	Citizenship Scrutiny Card	Associate Scrutiny Card	Naturalised Scrutiny Card	National Registration Card	Religious Card	Temporary Registration Card	Foreign Registration Card	Foreign Passport	None
Total	117,118	225	796	2,538	1,791	1,227	96	120	20,304

90 +	248	130	118	47.6	59	70	78	45

- Three in every 100 persons in South Okkalapa Township have, at least, one form of disability.
- Slightly more females than males have disability.
- The prevalence of disability increases with age and it increases considerably after the age of 75.
- Difficulties with walking and seeing were the most commonly mentioned forms of disability in the Township.

(G) Housing Conditions and Household Amenities

Type of housing unit

Table 12: Conventional households by type of housing unit by urban/rural

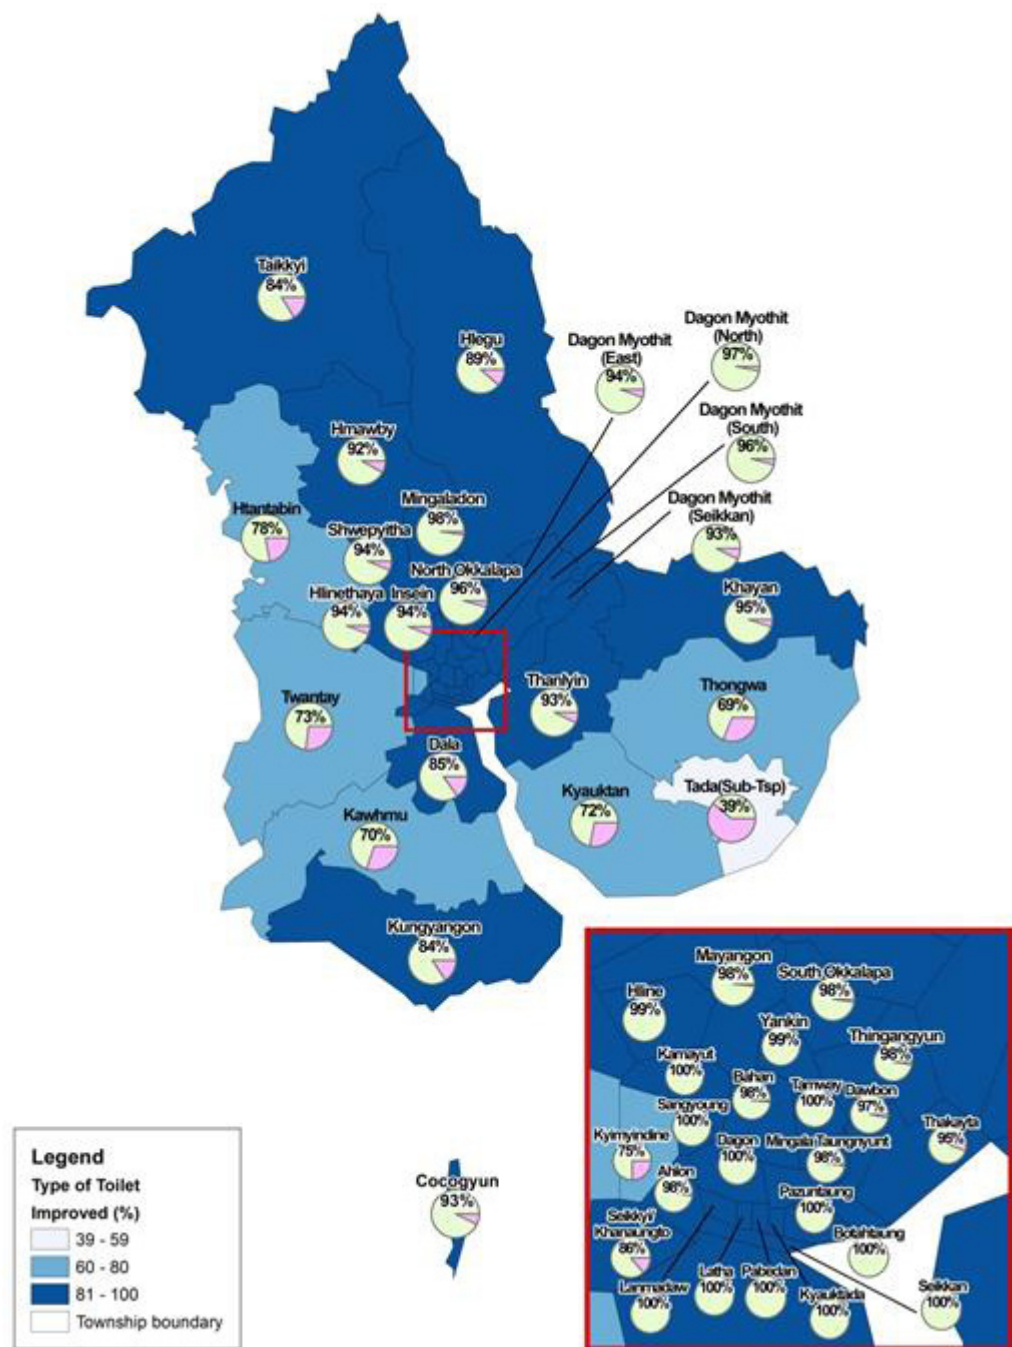

Residence	Total	Apartment/ Condominium	Bungalow/ Brick house	Semi-pacca house	Wooden house	Bamboo house	Hut 2 - 3 years	Hut 1 year	Other
Total	32,725	7.0	17.8	21.7	48.4	4.1	0.3	0.1	0.7
Urban	32,725	7.0	17.8	21.7	48.4	4.1	0.3	0.1	0.7
Rural	-	-	-	-	-	-	-	-	-

- The majority of the households in South Okkalapa Township are living in wooden houses (48.4%) followed by households in semi-pacca houses (21.7%).

Type of toilet

Figure 14: Proportion of households with access to improved sanitation

Union	: 74.3%
Yangon Region	: 91.1%
East District	: 96.4%
South Okkalapa Township	: 97.6%

Table 13: Conventional households by type of toilet by urban/rural

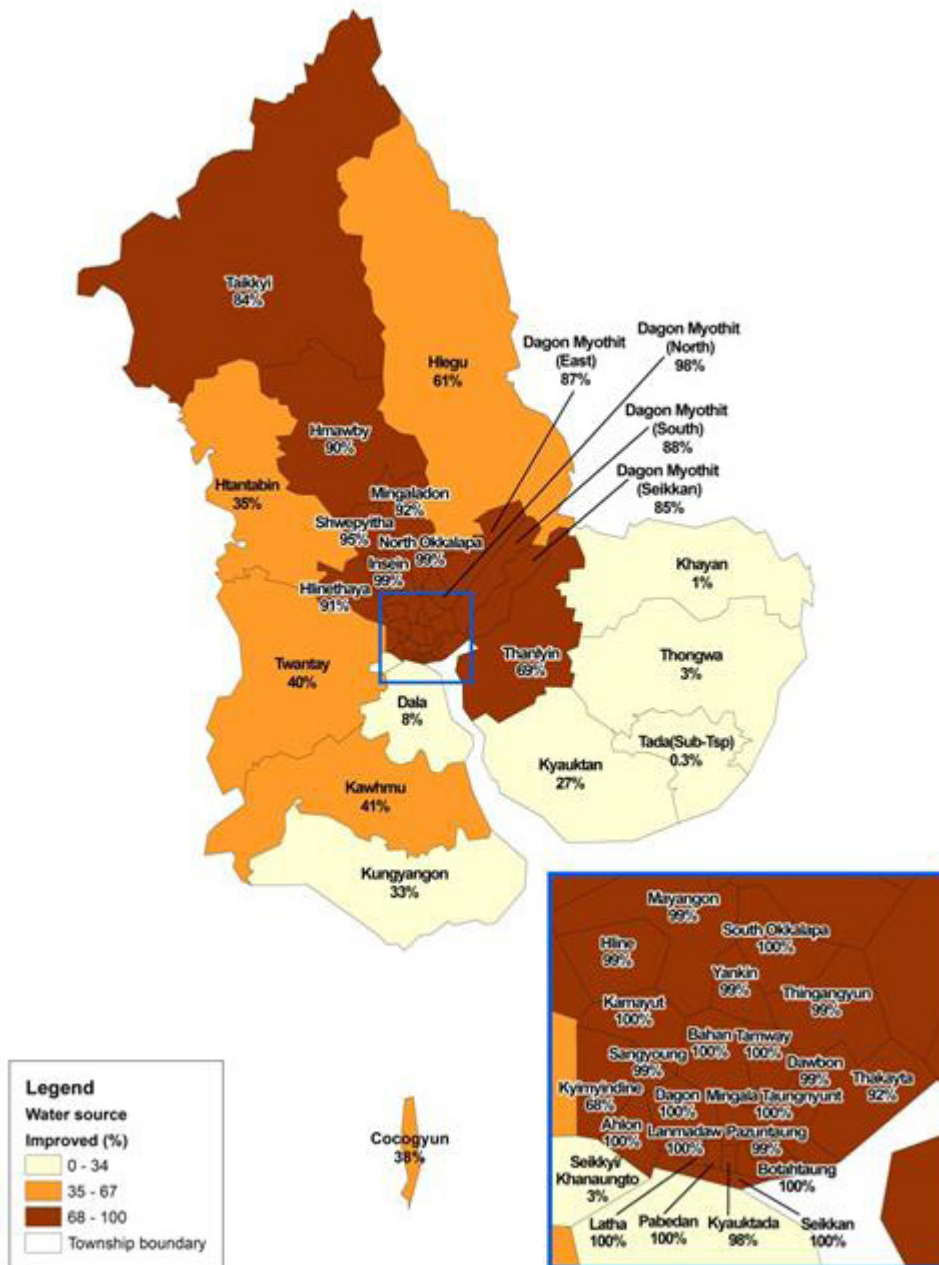

Type of toilet		Total	Urban	Rural
Flush		10.0	10.0	-
Water seal (Improved pit latrine)		87.6	87.6	-
<i>Improved sanitation</i>		<i>97.6</i>	<i>97.6</i>	-
Pit (Traditional pit latrine)		2.0	2.0	-
Bucket (Surface latrine)		0.2	0.2	-
Other		*	*	-
None		0.2	0.2	-
Total	Per cent	100.0	100.0	-
	Number	32,725	32,725	-

- Some 97.6 per cent of the households in South Okkalapa Township have improved sanitation facilities (flush toilet (10.0%), water seal (improved pit latrine) (87.6%)).
- Compared to other townships in Yangon Region, South Okkalapa Township has high proportion of households with improved sanitation facilities.
- The proportion of households with improved sanitation facilities in Yangon Region is 91.1 per cent while it is 74.3 per cent at the Union level.
- Some 0.2 per cent of the households in the township have no toilet facilities. For the entire Yangon Region, it is 3.3 per cent.

Note: * Less than 0.1 per cent

Source of drinking water

Figure 15: Proportion of households with access to improved source of drinking water

Union	: 69.5%
Yangon Region	: 77.3%
East District	: 94.9%
South Okkalapa Township	: 99.7%

Table 14: Conventional households by source of drinking water by urban/rural

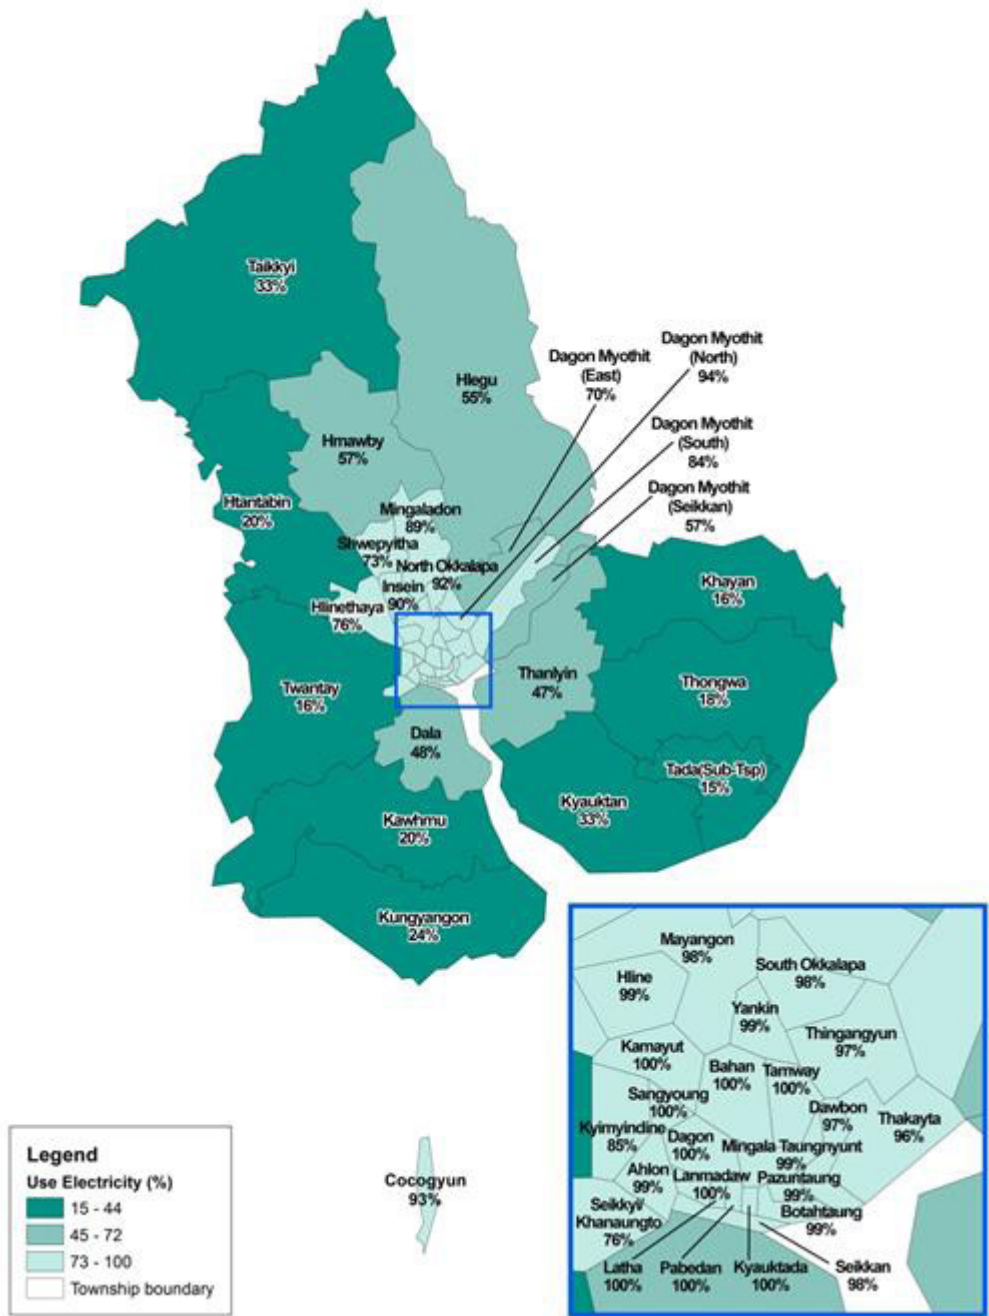

Source of drinking water	Total	Urban	Rural
Tap water/ Piped	30.2	30.2	-
Tube well, borehole	14.5	14.5	-
Protected well/ Spring	0.1	0.1	-
Bottled water/ Water purifier	54.9	54.9	-
<i>Total improved drinking water</i>	<i>99.7</i>	<i>99.7</i>	-
Unprotected well/Spring	*	*	-
Pool/Pond/ Lake	*	*	-
River/stream/ canal	*	*	-
Waterfall/ Rain water	*	*	-
Other	0.3	0.3	-
<i>Total unimproved drinking water</i>	<i>0.3</i>	<i>0.3</i>	-
Total	Per cent	100.0	100.0
	Number	32,725	32,725

- In South Okkalapa Township, 99.7 per cent of households use improved sources of drinking water (tap water/piped, tube well, borehole, protected well/spring and bottled water/water purifier).
- Compared to other townships in Yangon Region, it belongs to the highest group in use of improved sources of drinking water and it is also higher than the Union average (69.5%).
- Some 54.9 per cent of the households use water from bottled water/water purifier and 30.2 per cent use water from tap water/piped.
- Some 0.3 per cent of the households use water from unimproved sources.

Note: * Less than 0.1 per cent.

Source of lighting

Figure 16: Proportion of households using electricity for lighting

Union	: 32.4%
Yangon Region	: 69.3%
East District	: 89.4%
South Okkalapa Township	: 98.2%

Table 15: Conventional households by source of lighting by urban/rural

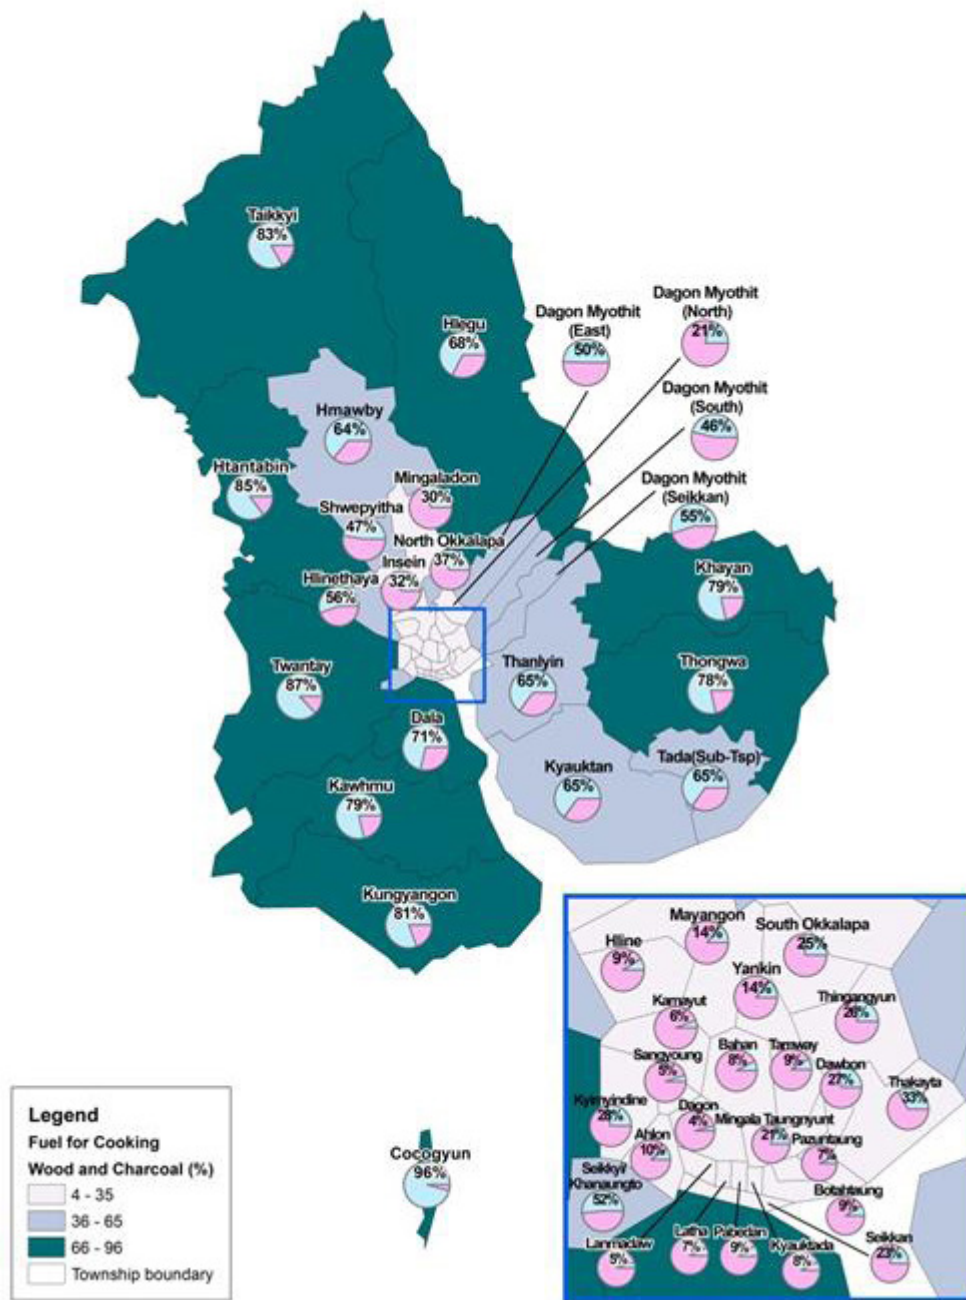

Source of lighting		Total	Urban	Rural
Electricity		98.2	98.2	-
Kerosene		*	*	-
Candle		0.5	0.5	-
Battery		1.0	1.0	-
Generator (private)		0.2	0.2	-
Water mill (private)		-	-	-
Solar system/energy		*	*	-
Other		0.1	0.1	-
Total	Per cent	100.0	100.0	-
	Number	32,725	32,725	-

- In South Okkalapa Township, 98.2 per cent of the households use electricity for lighting. This proportion is high in electricity usage compared to other townships in Yangon Region. The percentage of households that use electricity in Yangon Region is 69.3 per cent.

Note: * Less than 0.1 per cent.

Type of cooking fuel

Figure 17: Proportion of households using wood-related cooking fuel

Union	: 81.0%
Yangon Region	: 47.2%
East District	: 32.1%
South Okkalapa Township	: 25.3%

Table 16: Conventional households by type of cooking fuel by urban/rural

Type of cooking fuel		Total	Urban	Rural
Electricity		67.6	67.6	-
LPG		5.0	5.0	-
Kerosene		*	*	-
BioGas		0.8	0.8	-
Firewood		2.8	2.8	-
Charcoal		22.5	22.5	-
Coal		0.5	0.5	-
Other		0.8	0.8	-
Total	Per cent	100.0	100.0	-
	Number	32,725	32,725	-

- In South Okkalapa Township, households mainly use wood-related fuels for cooking with 2.8 per cent using firewood and 22.5 per cent using charcoal.
- Some 67.6 per cent of households use electricity for cooking.

Note: * Less than 0.1 per cent.

Communication and related amenities

Table 17: Conventional households by availability of communication and related amenities by urban/rural

Residence	Conventional households	Radio	Television	Land line phone	Mobile phone	Computer	Internet at home	% with none of the items	% with all of the items
Total	32,725	19.4	90.7	13.6	82.7	19.7	24.3	5.6	2.2
Urban	32,725	19.4	90.7	13.6	82.7	19.7	24.3	5.6	2.2
Rural	-	-	-	-	-	-	-	-	-

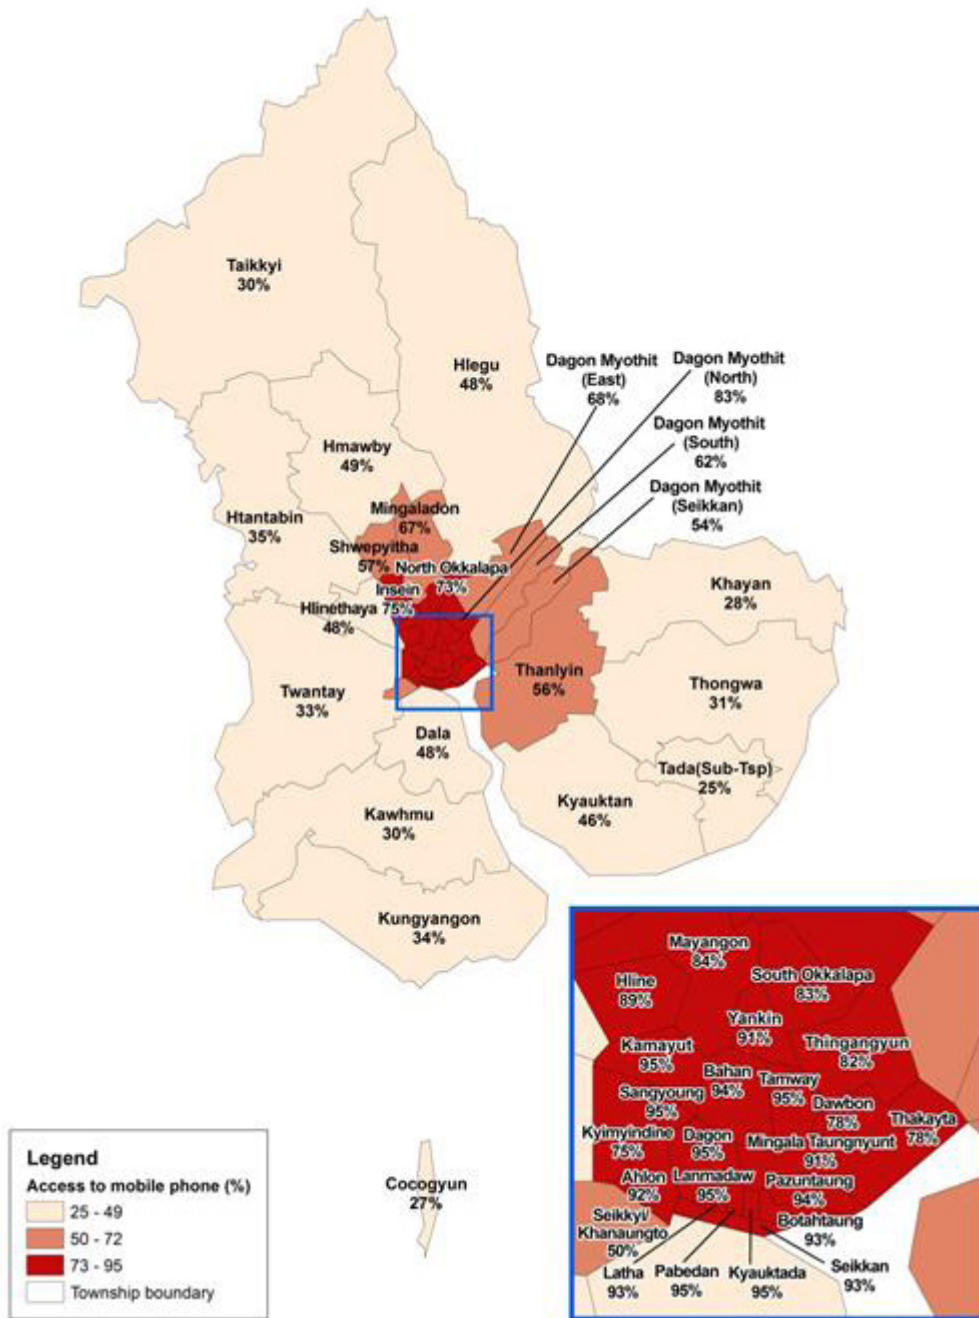

- Some 90.7 per cent of the households in South Okkalapa Township have access to television and is the highest among the access of communication and related amenities.

Figure 18: Percentage of households with access to radio and television

- In South Okkalapa Township, about one in five households (19.4%) reported having a radio.

Figure 19: Proportion of households with access to mobile phone

Union	: 32.9%
Yangon Region	: 60.9%
East District	: 76.1%
South Okkalapa Township	: 82.7%

- Some 82.7 per cent of the households in South Okkalapa Township reported having mobile phones. Compared to other townships in Yangon region, it is found to be high.

Transportation items

Table 18: Conventional households by availability of transportation items by urban/rural

Region/District/ Township	Conventional households	Car/Truck/ Van	Motorcycle/ Moped	Bicycle	4-Wheel tractor	Canoe/ Boat	Motor boat	Cart (bullock)
Yangon Region	1,582,944	123,149	215,828	731,428	19,305	19,464	15,790	76,215
Urban	1,069,056	115,768	93,377	508,239	3,509	2,913	2,352	6,308
Rural	513,888	7,381	122,451	223,189	15,796	16,551	13,438	69,907
East District	486,790	56,185	30,288	256,948	1,015	749	697	2,437
Urban	481,039	55,997	29,091	254,271	947	648	607	1,822
Rural	5,751	188	1,197	2,677	68	101	90	615
South Okkalapa Township	32,725	5,541	1,258	22,098	44	17	10	36
Urban	32,725	5,541	1,258	22,098	44	17	10	36
Rural	-	-	-	-	-	-	-	-

- In South Okkalapa Township, 67.5 per cent of households have bicycle as a means of transport and it is the highest proportion, followed by 16.9 per cent of households having car/truck/van.

(H) Fertility and Mortality

Fertility

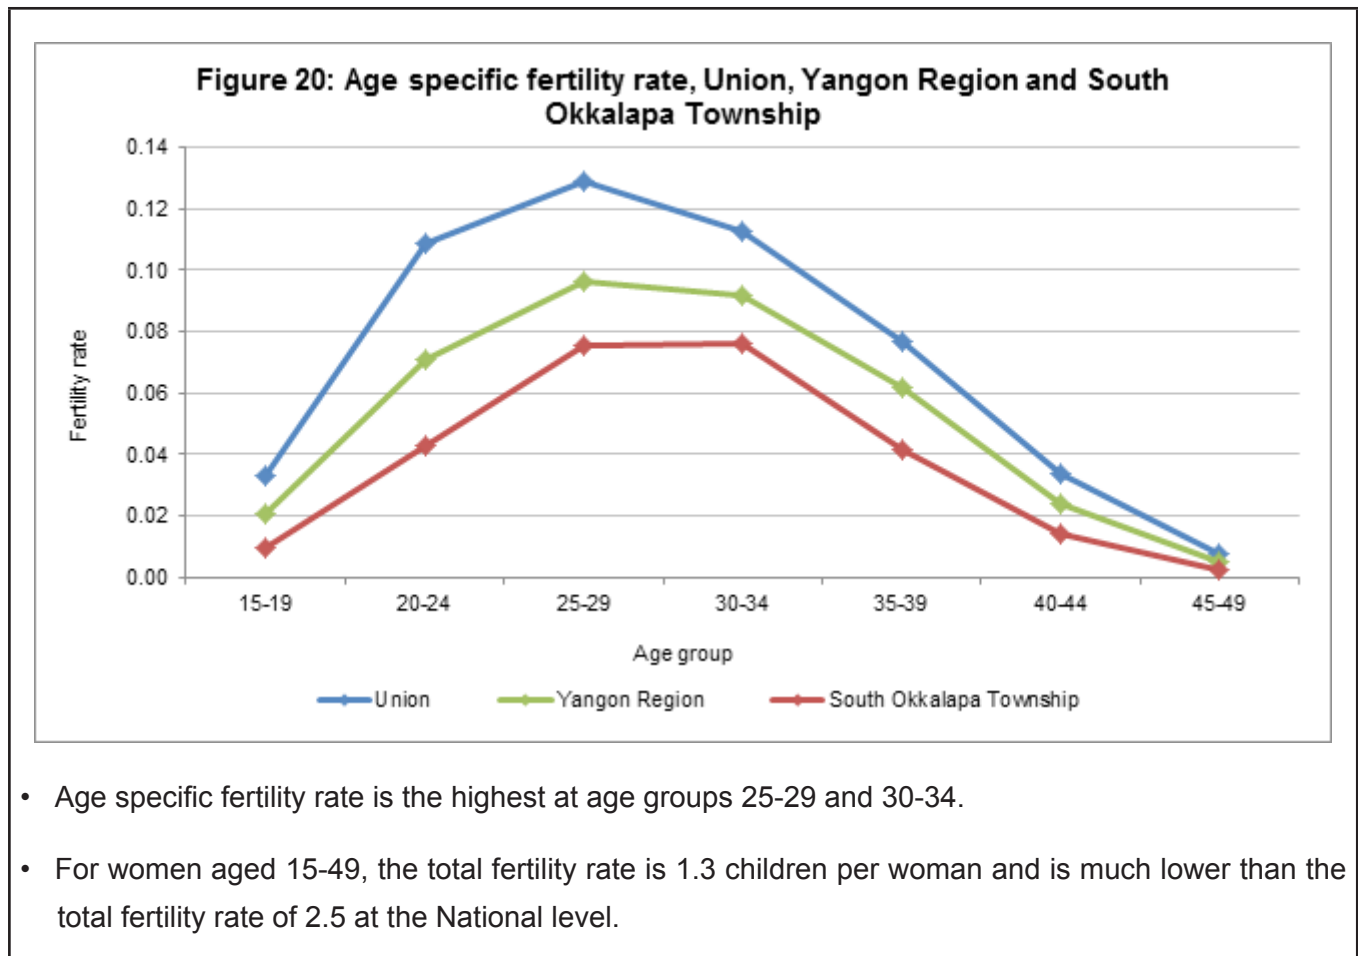

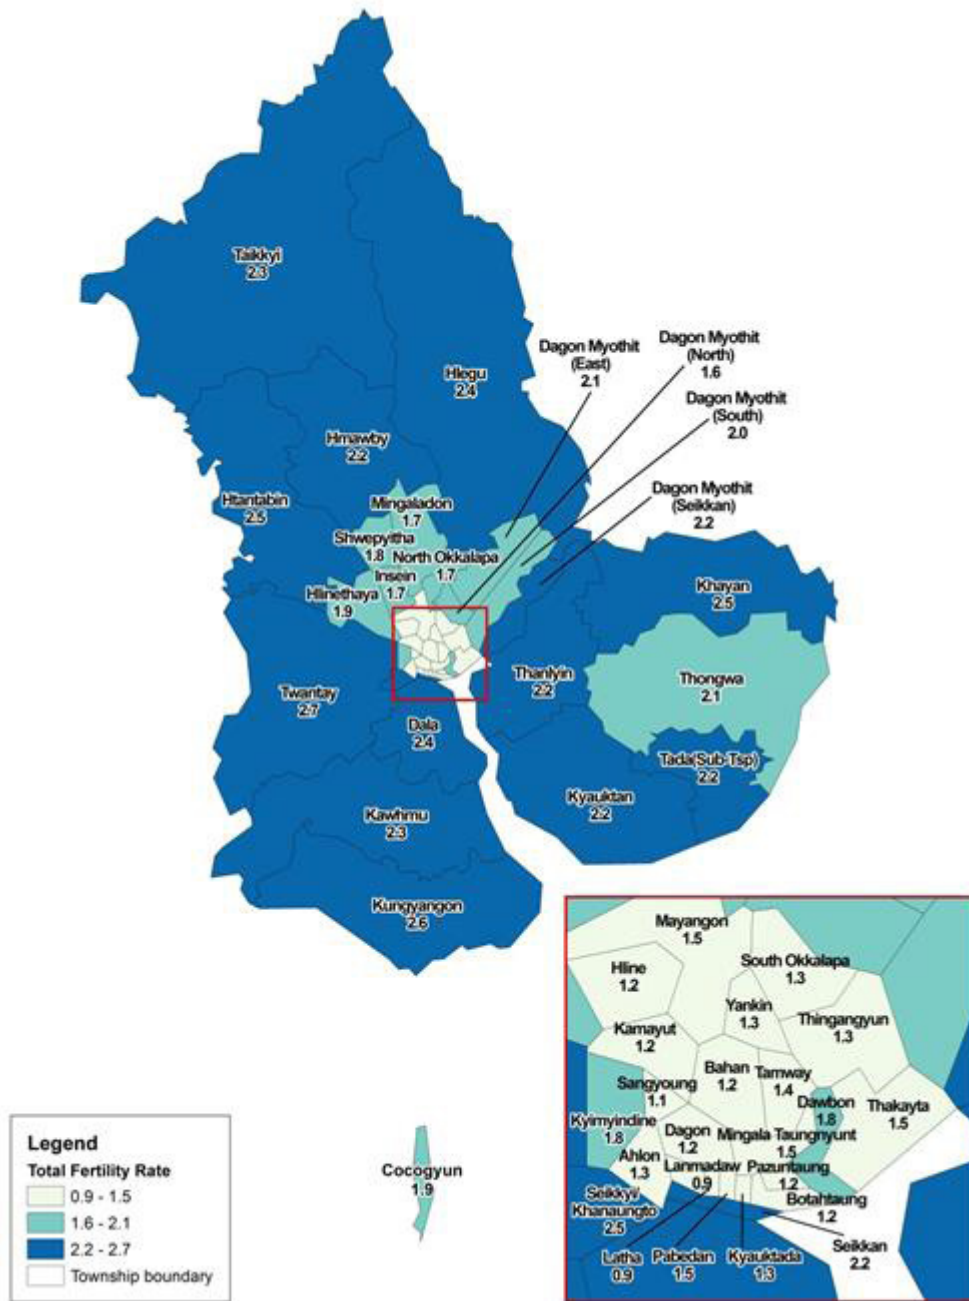

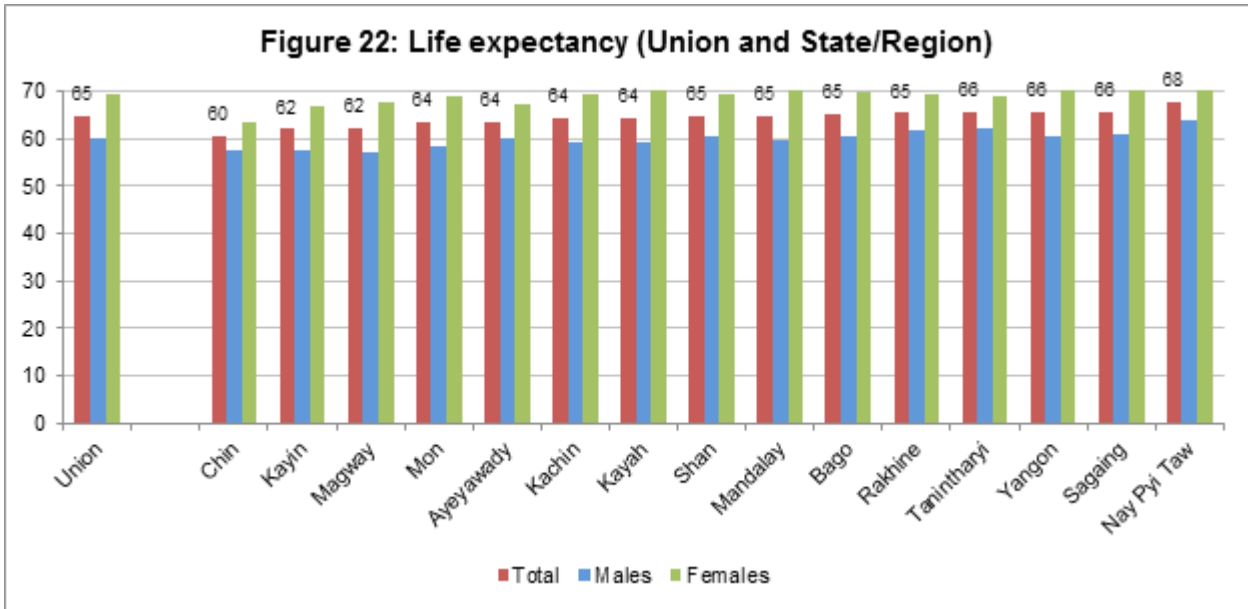

Figure 21: Total fertility rate

Union	: 2.5
Yangon Region	: 1.9
East District	: 1.7
South Okkalapa Township	: 1.3

Figure 22: Life expectancy (Union and State/Region)

- The expectation of life at birth in Yangon Region is 65.5 years and is higher than that of National level at 64.7 years.
- The female life expectancy at 70.8 years is higher than that of the males at 60.5 years.

Childhood Mortality and Maternal Mortality

Figure 23: Infant and Under 5 mortality rates

- The Infant and Under 5 mortality rates in East District are lower than the Union average. The Infant mortality in East District is 33 deaths under age one per 1,000 live births while Under 5 mortality is 37 deaths under age 5 per 1,000 live births.
- The Infant and Under 5 mortality rates in South Okkalapa Township are lower than those in Yangon Region and East District. The Infant mortality in South Okkalapa is 18 per 1,000 live births and Under 5 mortality is 21 per 1,000 live births.

Figure 24: Maternal mortality ratios (Union and Region)

- In Yangon region, there are 213 women dying while during pregnancy/delivery or within 42 days of termination of pregnancy for every 100,000 live births.
- The maternal mortality ratio in Yangon Region is lower than that of the Union level.
- Compared to the average maternal mortality ratio of 140 for Southeast Asian countries, the maternal mortality ratio of 282 for Myanmar is high.

Definitions and Concepts

Population: The population in this report corresponds to the de-facto population of Myanmar on Census Night (see below).

Census Night: The night between the 29th and the 30th March 2014. Every person in Myanmar was enumerated where they spent the Census Night.

Rural area: Areas classified by the Department of General Administration (GAD) as village tracts. Generally these are areas with low population density and a land use which is predominantly agricultural.

Urban area: Areas classified by the GAD as wards. Generally these areas have an increased density of building structures, population and better infrastructural development.

Population Density: The population density relates to the number of persons in a given administrative area to the surface of the area, expressed in square kilometres (Km²). Areas covered by water are excluded from the calculation.

Mean Household Size: The average number of persons per household (people living in households divided by number of conventional households).

Sex ratio: The number of males for every 100 females in a population.

Dependency ratio: The total dependency ratio is the ratio of dependents (people younger than 15 years and older than 64) to the population of working-age (age 15-64). Data are shown as the proportion of dependents per 100 working-age population. Three different measures can be calculated: total dependency ratio, child dependency ratio and old age dependency ratio.

Child Dependency Ratio: is the proportion of people younger than 15 years to the working age population (15-64).

Old Dependency Ratio: is the proportion of people older than 64 years to the working age population (15-64).

Ageing Index: The number of persons aged 65 years and over per 100 people under the age of 15 years.

Median Age: The age that divides a population into two numerically equal groups; that is, half the people are younger than this age and half are older.

Education: Education is the process by which people learn through instruction and teaching. The 2014 MPHC placed an emphasis on literacy skills, school attendance and educational attainment. The other categorisations used under education were:

- (a) **Literacy:** The ability to read and write in any language with reasonable understanding.
- (b) **School attendance:** The attendance at any regular educational institution or systematic instruction at any level of education during the last 12 months. This included schooling at pre-primary, primary, middle, high school and tertiary institutions of higher learning. The options were:
 - (a) Currently attending;
 - (b) Attended previously;
 - (c) Never attended.

(c) **Educational Attainment:** The highest grade/standard/diploma/degree completed within the most advanced level attended in the education system of the country where the education was received. It covered both public and private institutions accredited by government.

Disability: Disability is a situation where a person is at a greater risk than the general population of experiencing restrictions in performing routine activities (including activities of daily living) or participating in roles (such as work) if no supportive measures are offered. The difficulties covered in the 2014 census included:

- (a) **Walking difficulty** (wheel chairs, crutches, limping, problems climbing steps);
- (b) **Seeing difficulty** (low vision, blind);
- (c) **Hearing difficulty** (partially or completely deaf);
- (d) **Mental/Intellectual difficulty** (slow learning development making it hard to compete with their counterparts at school, other mental conditions).

Identity card: An identity card is a document used to verify aspects of a person's personal identity. There are several types of identity cards issued by the Government of Myanmar, and national passports in the case of foreigners.

Labour Force Status: According to the type of usual economic activities during the 12 months before Census Night, all persons 10 years of age and over were classified as follows:

Labour Force: The Labour force is a general term covering “employed” and “unemployed” persons in the population.

Employed: “Employed” persons refer to those who did any work during the time of the week before the census date or worked for more than 6 months in the 12 months before the census date for pay or profit, such as a wage, salary, allowance, business profit, etc. Also included in this category were persons

working in family businesses, on a farm, in a store, in a private hospital etc., even though they were not paid any wages.

Unemployed: “Unemployed” persons refer to those who had no work but were able to work and actually seeking a job during the reference period, or at the time of the census enumeration.

Not in labour force: This category comprised persons who had no work and did not make any positive efforts to find a job during the 6 months before the census date or were unable to work. This included full time students, household work, elderly people, etc.

Employment Status: All employed persons were classified according to the economic activity status in the place where they worked during the last 12 months or if they worked in more than one place, where they worked most of the time. There were five employment categories:

- (a) **Employee (Government):** those employed and working for government including in state organisation institutions.
- (b) **Employee (Private organisation):** those employed and working for private employers or private organisations. All people in private companies, NGOs, international organisations, retail and wholesale enterprises fell under this category.
- (c) **Employer:** persons who during the reference period worked in their own business, which also employed one or more other persons.
- (d) **Own account worker:** self-employed persons who worked in their own business or worked in their own/family business for family gain **and did not have any employees.**
- (e) **Unpaid family worker:** persons who worked in a business, farm, trade or professional enterprise operated by a member of the household/family and received no pay.

Labour force participation rate: The labour force participation rate is the ratio between the labour force and the overall size of the total population of the same age range. This is an important indicator as it portrays the proportion of the population that is economically active.

$$\text{Labour force participation rate} = \frac{\text{Labour force (Employed + Unemployed)}}{\text{Total Population}} \times 100$$

Unemployment rate: The percentage of the total labour force that is unemployed but actively seeking employment and willing to work. These are people who are without work, looking for jobs and available for work.

$$\text{Unemployment rate} = \frac{\text{Unemployed}}{\text{Labour force (Employed + Unemployed)}} \times 100$$

Employment to population ratio: A statistical ratio that measures the proportion of the country's working-age population (ages 15 to 64) that is employed. The International Labour Organization (ILO) states that a person is considered employed if they have worked at least 1 hour in "gainful" employment in the most recent week.

$$\text{Employment to population ratio} = \frac{\text{Employed}}{\text{Total Population}} \times 100$$

Occupation: Occupation refers to the kind of work an employed person did in the establishment during the 12 months (reference period) before the census date. Put differently, occupation is the kind of work done during the last 12 months by the person employed, regardless of the industry of the establishment. In the 2014 Myanmar Census, field data collectors were instructed to collect a detailed description of the work being done such as accounts clerk, data entry operator (clerk), legal secretary, domestic worker, fisherman, human resource manager, etc. If an employed person was engaged in two or more jobs, the kind of work was decided by the work in which he/she was mainly engaged in, that is in terms of time. The occupational classification is based on the ISCO 2008.

Industry: Industry refers to the main activity of the establishment where an employed person usually worked during the 12 months (reference period) before the census date. In the 2014 Myanmar Census, industry was explained to the enumerators as the type of economic activity carried out at the person's place of work. It is defined in terms of the kind of goods produced or services supplied by the enterprise in which the person works and not necessarily the specific duties or functions of the person's job. For example, a clerical officer working in stores within a factory that makes television sets. The industry should be recorded as manufacture of electrical goods. If an employed person worked in two or more establishments, "industry" was decided by the establishment where he/she worked most. The industrial classification is based on the ISIC Revision 4.

Live Birth: A live birth is one where the infant shows one or more of the following signs of life immediately after birth: crying or similar sounds, movement of the limbs or any other parts of the body and/or any other tangible signs of life. The census was concerned only with children born alive. Also collected was information on the last live birth of ever married female respondents.

Total fertility rate (TFR): The average number of children that a woman would give birth to if all women lived to the end of their childbearing years and bore children according to the current schedule of age-specific fertility rates.

$$\text{Total fertility rate (TFR)} = 5 \sum \text{Age specific fertility rate (ASFR)}$$

Age specific fertility rate (ASFR): The age-specific fertility rate measures the annual number of births to women of a specified age or age group per 1,000 women in that age group. Unless otherwise specified, the reference period for the age-specific fertility rates is the calendar year.
